A. Executive summary

A.1 Introduction

A.1.1 This Memorandum provides details about the policy background, the Licence and the Auction for determination of the Spectrum Utilization Fees applicable to the Frequency Bands specified in the Notice dated 21 September 2018 issued by the Authority in exercise of the powers conferred by section 32I of the TO, the Regulation and all other powers enabling it to specify the terms and conditions of the auction and the payment of the spectrum utilization fees. The Frequency Bands are allocated and assigned for the provision of public telecommunications services. Readers should note that:

- (a) There will be 50 MHz of spectrum in the 900 MHz band (i.e. the frequency range of 890 – 915 MHz paired with 935 – 960 MHz) and 150 MHz of spectrum in the 1800 MHz band (i.e. the frequency ranges of 1710 – 1785 MHz paired with 1805 – 1880 MHz) available for assignment/re-assignment;
- (b) Excluding 80 MHz of spectrum in the 1800 MHz band that will be administratively assigned to the Existing Assignees, the remaining 120 MHz of spectrum (viz. 50 MHz in the 900 MHz band and 70 MHz in the 1800 MHz band) will be available for auction;
- (c) The available spectrum will be divided into nine Frequency Bands (viz. A1, A2, and A3 (each with a bandwidth of 2 x 10 MHz); and A4, B1, B2, B3, B4 and B5 (each with a bandwidth of 2 x 5 MHz));
- (d) The Auction will be conducted in a simultaneous multiple round ascending format whereby all Frequency Bands will be auctioned simultaneously over multiple rounds with price adjustment on each Frequency Band independently;
- (e) The use of the Frequency Bands will be subject to Spectrum Utilization Fees, the amount of which is to be determined by the Auction, and the payment of which may either be by lump sum payment upfront or by annual instalments;

EXECUTIVE SUMMARY

- (f) The Minimum Fee, i.e. the minimum amount of the Spectrum Utilization Fee as specified by the Secretary in the Gazette notice of 21 September 2018 is HK\$38 million per MHz for the assignment term;
- (g) In making an Application to participate in the Auction, each Bidder must submit a Deposit, a duly completed Application Form and a Bidder Compliance Certificate;
- (h) Spectrum assignment to each Bidder or group of Connected Bidders is subject to a Spectrum Cap of not more than 90 MHz for the aggregate amount of spectrum in the 900 MHz and 1800 MHz bands, and a sub-cap of 20 MHz for spectrum in the 900 MHz band. The maximum amount of spectrum a Bidder or a group of Connected Bidders may acquire in the Auction will depend on whether it is an Existing Assignee or whether it has a Connection to an Existing Assignee;
- (i) If there is only one Qualified Bidder, no Bidding Stage will be conducted. That only Bidder will be the Provisional Successful Bidder for the use of the Frequency Bands it selects (subject to the Spectrum Cap) and the Spectrum Utilization Fees payable will be the sum of the Minimum Fees;
- (j) If there is more than one Qualified Bidder, the Bidding Stage will be conducted. The Provisional Successful Bidder for a Frequency Band will be the Bidder which holds the Standing Highest Bid in respect of that Frequency Band at the end of the Bidding Stage and the amount of the Spectrum Utilization Fee payable for that Frequency Band will be the amount of that Standing Highest Bid;
- (k) Within 60 Business Days after publication of the Provisional Successful Bidder Notice, the Provisional Successful Bidder for each Frequency Band will be required to submit a Letter of Credit guaranteeing its payment of the Spectrum Utilization Fees;
- (l) The Relevant Successful Bidder will be required to submit a Performance Bond to ensure its compliance with the network and service rollout requirement;
- (m) The assignment of Frequency Band A4 in the Auction is restricted for use in areas other than the Designated Areas;

EXECUTIVE SUMMARY

- (n) The assignment of the Frequency Bands and the Licence will be valid for a period of 15 years. There is no legitimate expectation of any right of renewal or right of first refusal upon expiry of assignment of any of the Frequency Bands;
- (o) The Licensees will be allowed to provide public mobile telecommunications services using the Frequency Bands, and additional use of Frequency Bands for provision of public fixed services will be allowed subject to approval by the Authority in accordance with the frequency allocation as stipulated in the Hong Kong Table of Frequency Allocations issued by OFCA;
- (p) The Relevant Licensees will be required to comply with the network and service rollout requirement for each of the services they are allowed to provide under the Licences;
- (q) The Licensees will be required to implement and facilitate at their own expense Fixed Number Portability (also known as Operator Number Portability or “ONP”) and Mobile Number Portability (“MNP”) as directed by the Authority. The Licensees may choose to implement Fixed-Mobile Number Portability (“FMNP”) on a voluntary basis at their own costs, and they must observe the relevant guiding principles governing the provision of FMNP and submit proposals to the Authority for its prior approval before the actual implementation;
- (r) The Licensees will not be subject to use of any particular technical standards for the provision of public mobile telecommunications services provided that the technical standards that they adopt conform to widely recognised international standards; and
- (s) The Licensees will not be subject to any licence obligation on Open Network Access.

A.1.2 This Memorandum provides details of the above and other issues. The rules of the Auction are summarized in Section D, but for full details interested parties should refer to the Notice, which is attached at Annex B of this Memorandum for easy reference. Terms and expressions used in this Memorandum have the meanings as in the Notice (see Annex B) and the Glossary of Terms of this Memorandum (see Annex E). In case of any discrepancy, the Notice shall prevail.

B. Policy background

B.1 Arrangements for the frequency spectrum in the 900 MHz and 1800 MHz bands upon expiry of the existing assignments for public mobile telecommunications services

B.1.1 Frequency spectrum in the 900 MHz and 1800 MHz bands has been assigned to four Existing Assignees¹. The relevant spectrum comprises 49.8 MHz in the 900 MHz band and 148.8 MHz in the 1800 MHz band, and is being deployed for the provision of the second, third and fourth generation (“2G”, “3G” and “4G”) mobile services². The existing assignments of the 49.8 MHz of spectrum in the 900 MHz band are due to expire on 11 January 2021³ while those of the 148.8 MHz of spectrum in the 1800 MHz band are due to expire on 29 September 2021. Also taking into account the 0.2 MHz of spectrum in the 900 MHz band and 1.2 MHz of spectrum in the 1800 MHz band which is currently vacant, a total of 200 MHz of spectrum, comprising 2 x 25 MHz in the frequency ranges of 890 – 915 MHz paired with 935 – 960 MHz and 2 x 75 MHz in the frequency ranges of 1710 – 1785 MHz paired with 1805 – 1880 MHz will be available for assignment/re-assignment (hereafter collectively referred to as “Re-assignment of the 900/1800 MHz Spectrum”).

B.1.2 Two rounds of public consultation have been conducted jointly by the Authority and the Secretary in 2016⁴ and 2017⁵ to solicit views and comments of the telecommunications industry and the other affected persons on the

¹ All the four Existing Assignees, namely, China Mobile Hong Kong Company Limited (“CMHK”), Hong Kong Telecommunications (HKT) Limited (“HKT”), Hutchison Telephone Company Limited (“Hutchison”) and SmarTone Mobile Communications Limited (“SmarTone”) are assigned spectrum in the 1800 MHz band. Three of them (HKT, Hutchison and SmarTone) also hold spectrum in the 900 MHz band.

² Since mid-2017, some of the spectrum in the 900 MHz band originally used for the provision of 3G services is being reformed for the provision of 4G services. But before the completion of the reforming process, the spectrum concerned is still being used for the provision of 3G services in certain locations.

³ Existing assignments of the 49.8 MHz of spectrum in the 900 MHz band are due to expire on dates between 19 November 2020 and 11 January 2021. In order to facilitate a smooth handover of any spectrum among the existing and new assignees and to simplify administrative arrangements, the CA decided in the December 2017 Statement that the new assignment periods for all the spectrum in the 900 MHz band should be aligned to commence on 12 January 2021. This involves an administrative extension of the existing frequency assignment in the 900 MHz band for Hutchison by 53 calendar days from 20 November 2020, and for SmarTone by eight calendar days from 4 January 2021, both to 11 January 2021, subject to their payment of spectrum utilization fees for the use of the spectrum during the extended assignment periods.

POLICY BACKGROUND

arrangements for the Re-assignment of the 900/1800 MHz Spectrum upon expiry of the existing arrangements and the related spectrum utilization fee.

- B.1.3 Having carefully considered the views and comments received in the two rounds of public consultation and the findings of an independent technical consultancy study, the Authority and the Secretary jointly issued the December 2017 Statement⁶ and set out the Decision. Among other matters, the Authority decided that a hybrid administratively-assigned cum market-based approach (“hybrid approach”) will be adopted for the Re-assignment of the 900/1800 MHz Spectrum upon expiry of the existing assignments. Under the hybrid approach, each of the four Existing Assignees will be offered a right of first refusal (“RFR”) for re-assignment of 2 x 10 MHz of spectrum in the 1800 MHz band, viz. in total, 2 x 40 MHz of spectrum (i.e. RFR Spectrum). The remaining 70 MHz of spectrum in the 1800 MHz band and all the 50 MHz of spectrum in the 900 MHz band, together with any spectrum in respect of which the Existing Assignees do not exercise their RFR, will be assigned by way of auction.
- B.1.4 All of the four Existing Assignees confirmed acceptance of the RFR Offer to the Authority by the deadline of 10 September 2018⁷.
- B.1.5 Following the RFR exercise, the remaining 70 MHz of spectrum in the 1800 MHz band and 50 MHz of spectrum in the 900 MHz band will be available for bidding by interested parties. The spectrum in the 1800 MHz band is divided into four Frequency Bands, three with a bandwidth of 2 x 10 MHz and one with a bandwidth of 2 x 5 MHz. The spectrum in the 900 MHz band is divided into five Frequency Bands, each with a bandwidth of 2 x 5 MHz. See Figure 1 below.

⁶ The Authority’s statement is available at https://www.coms-auth.hk/filemanager/statement/en/upload/429/ca_statements20171219_en.pdf.

⁷ RFR Spectrum was offered to the four Existing Assignees as follows:

HKT:	1720 – 1730 MHz paired with 1815 – 1825 MHz;
SmarTone:	1740 – 1750 MHz paired with 1835 – 1845 MHz;
CMHK	1750 – 1760 MHz paired with 1845 – 1855 MHz; and
Hutchison:	1760 – 1770 MHz paired with 1855 – 1865 MHz.

Figure 1: Frequency Band and bandwidth

Frequency Band	Frequency range (MHz)	Bandwidth
A1	1710 – 1720 paired with 1805 – 1815	2 x 10 MHz
A2	1730 – 1740 paired with 1825 – 1835	2 x 10 MHz
A3	1770 – 1780 paired with 1865 – 1875	2 x 10 MHz
A4	1780 – 1785 paired with 1875 – 1880	2 x 5 MHz
B1	890 – 895 paired with 935 – 940	2 x 5 MHz
B2	895 – 900 paired with 940 – 945	2 x 5 MHz
B3	900 – 905 paired with 945 – 950	2 x 5 MHz
B4	905 – 910 paired with 950 – 955	2 x 5 MHz
B5	910 – 915 paired with 955 – 960	2 x 5 MHz

- B.1.6 The nine Frequency Bands will be assigned by way of auction, subject to a qualification process for participation in the Auction and payment of the Spectrum Utilization Fees by the Provisional Successful Bidders.
- B.1.7 Subject to the outcome of the Auction, some or all of the Frequency Bands may change hands among the Existing Assignees and new assignees, upon the expiry of the current spectrum assignments. Also, given the use of many Integrated Radio Systems (“IRS”) currently by the Existing Assignees for provision of indoor mobile coverage, reconfiguration of the IRS for the new assignment term commencing 12 January 2021 for the 900 MHz band and 30 September 2021 for the 1800 MHz band may be required and should be carefully planned to ensure smooth handovers of spectrum among Existing Assignees and new assignees.
- B.1.8 To ensure smooth handovers of the Frequency Bands, OFCA is minded to convene a technical working group in 2019 comprising representatives of all the Existing Assignees and new assignees, to ensure that appropriate arrangements and measures are in place to facilitate a smooth transition.

B.2 Payment of Spectrum Utilization Fees

B.2.1 In the December 2017 Statement, the Authority stated that the use of the Frequency Bands shall be subject to payment of the Spectrum Utilization Fees. Pursuant to section 32I(1) of the TO, the Authority has by Order⁸ designated the use of the Frequency Bands to be subject to the payment of the Spectrum Utilization Fees. The Minimum Fee is set by the Secretary at HK\$38 million per MHz for the assignment term.

B.2.2 Pursuant to section 32I(2) of the TO, the Secretary has prescribed by Regulation⁹ the method for determining the Spectrum Utilization Fees payable for the use of the Frequency Bands, together with the methods for paying the Spectrum Utilization Fees. The Successful Bidders may pay the Spectrum Utilization Fees either (a) in a lump sum payment upfront; or (b) annually in 15 instalments with the first instalment equivalent to the lump sum amount divided by 15 and for each subsequent instalment an amount equal to the Spectrum Utilization Fee payable in the immediately preceding instalment increased by 2.5%. In the case of payment by annual instalments, the Successful Bidder is required to maintain at all times throughout its whole new assignment term a rolling performance bond to guarantee payment of Spectrum Utilization Fees payable in the ensuing five years, or the Spectrum Utilization Fees payable for the remaining duration of the new assignment term if it is less than five years, in the form of Schedule B attached to the Licence. The first rolling performance bond shall be submitted to the Authority together with the first annual instalment payment on or before 12 November 2020 for Frequency Bands B1 to B5, and on or before 30 July 2021 for Frequency Bands A1 to A4.

B.2.3 Under the Regulation, the Authority is empowered to hold the Auction to determine the level of the Spectrum Utilization Fees payable for the use of the Frequency Bands. Where there is more than one Qualified Bidder, there will be an auction to determine the Spectrum Utilization Fees for the use of the Frequency Bands. The Bidder which holds the Standing Highest Bid for a particular Frequency Band at the end of the Bidding Stage will be the

⁸ The Telecommunications (Designation of Frequency Bands subject to Payment of Spectrum Utilization Fee) Order (Cap. 106Y) is available at <https://www.elegislation.gov.hk/hk/cap106Y!en.pdf?FROMCAPINDEX=Y>.

⁹ The Telecommunications (Determining Spectrum Utilization Fees by Auction) (Cap. 106AC) is available at <https://www.elegislation.gov.hk/hk/cap106AC!en.pdf?FROMCAPINDEX=Y>.

POLICY BACKGROUND

Provisional Successful Bidder of that Frequency Band and the amount of that Standing Highest Bid will be the amount of Spectrum Utilization Fee payable for that Frequency Band. Where there is only one Qualified Bidder, no auction will be held. That Qualified Bidder will be the Provisional Successful Bidder of the Frequency Band it selects, subject to the Spectrum Cap, and the Spectrum Utilization Fee payable by the Provisional Successful Bidder will be the Minimum Fee for the selected Frequency Band.

- B.2.4 Pursuant to section 32I(2) of the TO, the Secretary has also prescribed the spectrum utilization fee payable for the use of the RFR Spectrum¹⁰. The spectrum utilization fee for the RFR Spectrum is set at HK\$54 million per MHz, or the average spectrum utilization fee of the spectrum in the 1800 MHz band as determined by the Auction, whichever is the higher, with a cap at HK\$70 million per MHz.
- B.2.5 While the Telecommunications (Level of Spectrum Utilization Fees) (Second Generation Mobile Services) Regulation (Cap. 106AA) has specified the method for determining the spectrum utilization fee for use of spectrum in the 900 MHz and 1800 MHz bands for the existing assignment periods, which will expire on 11 January 2021 and 29 September 2021 respectively, the Secretary has made amendments to Cap. 106AA to make it clear that it applies only to the existing assignment periods (L.N. 104 of 2018). The determination of the spectrum utilization fees of the spectrum in the 900 MHz and 1800 MHz bands in the new assignment term will be governed by the Regulation and the newly enacted Telecommunications (Method for Determining Spectrum Utilization Fee) (Administratively Assigned Spectrum in the 1800 MHz Band) Regulation (Cap. 106AF), for the Frequency Bands and RFR Spectrum respectively.
- B.2.6 For the avoidance of doubt, the amount guaranteed under the Letter(s) of Credit as required under paragraph D.8.1 below shall be in full amount of the Spectrum Utilization Fees and is independent of the method of payment for the Spectrum Utilization Fees selected by the Provisional Successful Bidders.

¹⁰ Telecommunications (Method for Determining Spectrum Utilization Fee) (Administratively Assigned Spectrum in the 1800 MHz Band) Regulation (Cap. 106AF) is available at <https://www.elegislation.gov.hk/hk/cap106AF!en.pdf?FROMCAPINDEX=Y>.

POLICY BACKGROUND

B.3 Use of Frequency Band A4 within and outside the Designated Areas

- B.3.1 In order to ensure continuous provision of mobile service coverage in country parks and remote areas particularly for the support of emergency communications, the Authority will administratively re-assign the part of the Country Park Frequencies within Frequency Band A4 already so assigned to the three Existing Assignees to provide mobile coverage in the Designated Areas for the new term of assignment.
- B.3.2 Pursuant to section 3B of the Regulation, no spectrum utilization fee shall be payable for the use of Country Park Frequencies if the user is authorised by the Authority to use the spectrum through a base station located in the Designated Areas for the sole purpose of providing mobile telecommunications services within the Designated Areas. Details of the Designated Areas, including country parks and special areas designated under the Country Parks Ordinance (Cap. 208) and three remote areas in Robin's Nest, Lai Chi Wo and Sai Kung, have been specified by the Authority in G.N. 5198 published on 13 July 2018, and are also set out in Annex C of this Memorandum. Maps of the Designated Areas are available for inspection at OFCA.
- B.3.3 Paragraphs B.3.1 and B.3.2 above set out the arrangements for the use of Country Park Frequencies within Frequency Band A4 within the Designated Areas. The assignment of Frequency Band A4 in the Auction is restricted for use in areas other than the Designated Areas and subject to the payment of Spectrum Utilization Fees. The Successful Bidder of Frequency Band A4 shall pay the Spectrum Utilization Fees determined in the Auction for the use of it outside the Designated Areas.
- B.3.4 Carrier licensees are required under their licences to take reasonable measures to install, maintain and operate the service and the network in such a manner as not to cause any harmful interference to any other lawful telecommunications service. Mobile carriers using Country Park Frequencies within the Designated Areas and the Successful Bidder using Frequency Band A4 outside the Designated Areas are required to coordinate closely and resolve any interference issues with each other.

B.4 Regulation of telecommunications services in Hong Kong

B.4.1 The Frequency Bands shall be used for the provision of public mobile telecommunications services; and additional use of Frequency Bands for the provision of public fixed services is allowed subject to the approval by the Authority in accordance with the frequency allocation in the Hong Kong Table of Frequency Allocations issued by OFCA¹¹. Currently, Frequency Bands B1 to B5 are allocated for public mobile telecommunications services while Frequency Bands A1 to A4 are allocated for both fixed and mobile services. Without limitation to the generality of the provisions of the TO and instruments issued by the Authority including but not limited to statements and decisions of the Authority as published on the Authority's website, the following describes the major elements of the current regulatory framework for the provision of public telecommunications services in Hong Kong.

B.5 Licensing arrangement

B.5.1 The Frequency Bands assigned in the Auction will be licensed under a Unified Carrier Licence ("UCL"). The general conditions, validity period and the licence fees payable under the UCL are set out in the Telecommunications (Carrier Licences) Regulation (Cap. 106V). In issuing a UCL for different types of services, the Authority may attach additional special conditions which are not inconsistent with the TO and the general conditions.

B.5.2 If a Successful Bidder of the Auction already holds a fixed carrier licence/mobile carrier licence/UCL issued by the Authority¹², the Authority may at its discretion allow the provisions contained in the existing fixed carrier licence/mobile carrier licence/UCL of that Successful Bidder to be

¹¹ The Hong Kong Table of Frequency Allocations issued by OFCA in January 2018 is available at https://www.ofca.gov.hk/filemanager/ofca/common/Industry/broadcasting/hk_freq_table_en.pdf.

¹² Before 1 April 2001, the operation of fixed carrier services and mobile carrier services was licensed under the Fixed Telecommunications Network Services licence and Public Radiocommunications Service licence respectively. After the carrier licence regime came into force on 1 April 2001, the Authority issued fixed carrier licence and mobile carrier licence for the operation of fixed carrier services and mobile carrier services respectively. Since the implementation of UCL in August 2008, the Authority no longer issues any fixed carrier licence, fixed carrier (restricted) licence, mobile carrier licence and mobile carrier (restricted) licence. For the provision of fixed, mobile and/or converged services, the Authority will issue UCL only. All existing fixed carrier licence, and mobile carrier licence shall remain valid until they expire. The licence holders may apply to the Authority for a UCL to replace their existing carrier licences upon expiry. Alternatively, the licence holders may apply to the Authority for conversion of their existing licences before expiry to UCLs on a voluntary basis.

incorporated in appropriate form into the UCL to be granted.

B.6 Interconnection regime

B.6.1 Interconnections between telecommunications networks and services are governed by sections 36A and 36B of the TO and the licence conditions of the carrier licences. The Authority issued a series of statements (No. 1 to No. 10) during the period from 28 March 1995 to 21 June 1995 on “Interconnection and Related Competition Issues”, setting out the principles for seeking and effecting interconnection¹³.

B.6.2 A carrier is required under its licence to ensure “any-to-any connectivity” (“A2A”) by interconnecting its network and service with networks and services of other carriers, subject to the requirements of the TO and the relevant licence conditions. Irrespective of the types of networks and services which they provide and operate and irrespective of the underlying technologies used, carriers are obliged to interconnect with one another so that any customer in any one network can enjoy seamless and transparent access to any other customer in any interconnecting network and, where directed by the Authority, to any telecommunications service offered in any interconnecting network.

B.6.3 Regarding carrier to carrier interconnection, the Authority has not intervened to regulate the mobile-mobile interconnection charge (“MMIC”)¹⁴ and broadband interconnection charge between fixed carriers. While in the past the Authority had given regulatory guidance to the industry on the payment of fixed-mobile interconnection charge (“FMIC”)¹⁵ based on the Mobile Party’s Network Pays arrangement, that regulatory guidance was withdrawn on 27 April 2009 in accordance with the Authority’s decision in its Statement entitled “Deregulation for Fixed-Mobile Convergence” published on 27 April 2007¹⁶.

¹³ The Authority’s statements No. 1 to 10 are available at http://tel_archives.ofca.gov.hk/en/tas/tas-bs-interconnection.html.

¹⁴ MMIC refers to the interconnection charge for telephony traffic exchanged between two mobile carriers.

¹⁵ FMIC is an interconnection charge for telephony traffic exchanged between fixed carrier and mobile carrier.

¹⁶ The Authority’s statement is available at http://tel_archives.ofca.gov.hk/en/tas/others/ta20070427.pdf.

POLICY BACKGROUND

B.6.4 Whilst the narrowband interconnection charge between fixed carriers was subject to regulatory guidance¹⁷, the Authority decided on 16 April 2013 to withdraw the regulatory guidance on the charging principles of narrowband interconnection between fixed carriers and Statement No. 7 on “Interconnection and Related Competition Issues” after a transitional period which ended on 16 October 2014¹⁸. In other words, there is at present no regulatory guidance in force concerning either the charging principles of MMIC, FMIC, or narrowband and broadband interconnection charges between fixed carriers. All such charges are solely determined through commercial negotiations among the carriers.

B.6.5 Regarding carrier to service provider interconnection, the Authority has reviewed and updated the regulatory arrangements for international call forwarding service (“ICFS”) charge¹⁹ and local access charges (“LAC”)²⁰. For the ICFS charge, the Authority updated the terms and conditions of interconnection in its determination issued in May 2009²¹. For the LAC, the Authority decided to adopt an updated LAC regime in December 2011²² which came into effect from 1 July 2013.

B.7 Use of numbers

B.7.1 Pursuant to section 32F of the TO, the Authority has issued a “Numbering Plan for Telecommunications Services in Hong Kong” (“Hong Kong Numbering Plan”)²³. A unified carrier licensee is entitled to apply for allocation of telecommunications numbers and codes in the Hong Kong

¹⁷ The updated Authority’s statement No. 7 is available at http://tel_archives.ofca.gov.hk/en/tas/interconnect/ta20090403stat.pdf.

¹⁸ The Authority’s statement is available at http://www.coms-auth.hk/filemanager/statement/en/upload/170/ca_statements20130416.pdf.

¹⁹ ICFS charge refers to the access charge or originating charge for interconnection necessary for the provision of international call forwarding service.

²⁰ LAC refers to an interconnection charge payable by external telecommunications service (“ETS”) operators to the local network operators, including local fixed and mobile carriers, for the conveyance of ETS traffic to and from end users of the local network operators.

Numbering Plan for provision of telecommunications service in accordance with the relevant guidelines and codes of practices issued by the Authority²⁴.

B.8 Number portability

B.8.1 Number portability for fixed and mobile telecommunications services (i.e. ONP and MNP) has been implemented in Hong Kong since 1995 and 1999 respectively. Fixed numbers are portable among all the fixed carriers and services-based operator (“SBO”) licensees providing fixed voice telephony services²⁵, and mobile numbers are portable among all the mobile carriers and SBO licensees providing mobile voice telephony services and mobile virtual network operator (“MVNO”) services²⁶.

B.8.2 ONP and MNP are implemented in Hong Kong using the distributed database approach, which requires the originating network to perform number translation. Each originating network has the responsibility of routing the calls correctly to the final recipient’s network. With the implementation of the unified carrier licensing regime in August 2008, all UCL holders (including fixed and mobile carriers), MVNOs and SBOs providing class 1 services should facilitate ONP and MNP at their own expense²⁷. In line with that requirement, the Authority issued a determination on 22 October 2010 to sunset all previous determinations relating to ONP and MNP²⁸. The obligation on number portability will be accompanied by the right to have access to the number porting database. To fulfil the licence obligations concerning the provision of ONP and MNP, the licensees may choose to set up their own systems or negotiate with other licensees to make arrangements at commercially agreed terms. If the licensees opt to set up their own number portability databases, they shall, where and as directed by the Authority,

²⁴ The code of practice relating to the use of numbers and codes in the Hong Kong Numbering Plan is available at https://www.coms-auth.hk/filemanager/statement/en/upload/385/cop-numbering_e.pdf.

²⁵ SBO licensees are required to support number portability for fixed numbers if they provide “Class 1” type fixed services (i.e. fixed services that have all the attributes of the conventional fixed telephone services) under their licences.

²⁶ SBO licensees are required to support number portability for mobile numbers if they provide “Class 1” type mobile services (i.e. mobile services that have all the attributes of the conventional mobile telephone services) and MVNO services under their licences.

POLICY BACKGROUND

provide administration database hosting service²⁹ to other licensees at commercially agreed terms to facilitate the portability of numbers as required under their licences.

- B.8.3 The Authority issued a statement in July 2009³⁰ announcing that operators may implement FMNP on a voluntary basis at their own cost. Interested licensees should observe the relevant guiding principles governing the provision of FMNP and submit proposals to the Authority for its prior approval before commencing.

B.9 Road opening

- B.9.1 A unified carrier licensee may, on a case by case basis, be granted with right of road opening³¹ if it is authorised to provide fixed services under its licence and it demonstrates that it is rolling out a wireline-based infrastructure. For more details on the application for road opening authorisation and procedure for road opening works, please refer to the relevant guidelines issued by the Authority³².

- B.9.2 A unified carrier licensee authorised to provide mobile service only does not have the right to lay cables along or across public streets or unleased Government land. The licensee will be required to lease circuits from licensed local fixed network operators for the connections between base stations and mobile switching equipment. Applications for the operation of radio links in place of circuits leased from fixed network operators will be considered by the Authority on a case-by-case basis due to the limitations in the availability of suitable radio spectrum for such links.

B.10 Building access

- B.10.1 Similar to the case of road opening, a unified carrier licensee authorised to provide fixed services may be granted with rights of building access under

²⁹ Administration database hosting service means a service offered by the licensee which makes available its administration database for access by another licensee, so that the latter will be able to fulfil the licence obligation under its own licence to facilitate the portability of numbers without the need of setting up its own administration database.

³⁰ The Authority's statement is available at http://tel_archives.ofca.gov.hk/en/tas/numbering/tas20090710.pdf.

³¹ In the case of unleased government land, consent in writing of the Director of Lands is required.

section 14(1) of the TO if it demonstrates a plan to roll out self-built customer access network to buildings based on deployment of technology which requires the laying of facilities in the common parts of a building for serving only the residents and occupants of that building. For more details on the application of building access authorisation for provision of fixed telecommunications service, please refer to the relevant guidelines issued by the Authority³³.

B.11 Sharing of use of facilities

B.11.1 The sharing of “bottleneck” facilities is governed by section 36AA of the TO. The Authority encourages commercial agreements for the sharing of the “bottleneck” facilities. If commercial agreements could not be reached within a reasonable period and subject to passing the “public interest” test specified in the section, the Authority may direct sharing of the “bottleneck” facilities and determine the terms for such sharing.

B.12 Access to hilltop radio sites

B.12.1 Some remote areas are under-served by fixed broadband services as the provision of wireline solution thereto is either uneconomical or technically non-feasible at this juncture. Public telecommunications services based on wireless broadband solutions would be able to provide a viable and cost-effective alternative for broadband access to these areas. To facilitate the deployment of such wireless broadband services to remote areas, sharing of existing hilltop radio sites for provision of such services to these areas may be allowed, subject to the availability of facilities at the sites. OFCA has issued guidelines on the use of hilltop radio site resources³⁴ to ensure that such sites and facilities thereon are used efficiently and effectively to meet the needs for telecommunications, utilities and other public services. Application for shared use of hilltop radio sites by a unified carrier licensee providing public telecommunications services will be considered on a case-by-case basis.

³³ The guidelines are available at http://tel_archives.ofca.gov.hk/en/report-paper-guide/guidance-notes/gn_200820.pdf.

³⁴ The guidelines are available at <https://www.coms-auth.hk/filemanager/statement/en/upload/457/gn082018e.pdf>.

B.13 Construction of radio base stations

- B.13.1 Sites for the installation of radio base stations are usually acquired by licensees on a commercial basis through negotiations with landowners. The Authority will not intervene in this process except in circumstances set out in sections 14(1B) and 36AA of the TO. It should be noted that section 14(1B) is seldom applicable to sites on roof-tops because alternative sites to serve a particular area using radio transmission are usually available.
- B.13.2 In addition to compliance with the requirements of the Authority in respect of frequency emission and non-ionizing radiation safety, the Licensee must ensure that their installations of radio base stations comply with the requirements of the relevant Government departments including the Buildings Department, the Lands Department and the relevant statutory town plans of the Planning Department/Town Planning Board. The Authority has adopted a one-stop application procedure under which the Licensee is required to declare the compliance status of its proposed radio base stations with the requirements of the Government departments/authorities concerned.
- B.13.3 To shorten the overall processing time of base station application, the Authority and the Lands Department have adopted parallel processing of applications in cases where a temporary waiver is required. The Licensee must submit applications to the Authority and the Lands Department (if a temporary waiver is required) in parallel. The Authority will start processing the application upon receiving the Licensee's declaration that the related waiver application has been submitted to the Lands Department. The Authority may, after having been satisfied that all requirements concerning electromagnetic compatibility and radiation safety are met, grant an approval for the operation of the radio base station prior to the Lands Department's decision on the related waiver application. In order to ensure the radiation safety requirements are met, OFCA will conduct random checking of radiation level of base stations which have been put into operation following the prior approval of the Authority.
- B.13.4 The Licensee should refer to the "Guidance Note for Submission of Applications by Public Telecommunications Operators for the Installation of Radio Base Stations for Public Telecommunications Services in Buildings and

POLICY BACKGROUND

on Rooftops” published on the Authority’s website³⁵ for details of the requirements and procedures for obtaining approval from the departments/authorities concerned. The decision as to whether or not to grant such approval and the actual time taken to grant such approval remains at the discretion of the individual departments/authorities concerned.

B.14 Deployment of femtocell

B.14.1 The Authority adopts a lighted-handed regulatory framework in respect of the installation of relevant femtocell equipment. Under the said regulatory framework, the Licensees are allowed to deploy femtocell for the provision of mobile services without having to seek the prior approval of the Authority for individual femtocell installation and provision of detailed information of femtocells under their UCLs. For holders of existing mobile carrier licence or UCL for provision of mobile services, they may apply to the Authority for the necessary amendments to their licences. A femtocell is not considered as a base station for the purpose of licence fee calculation³⁶.

B.15 Phasing out of 2G and other generations of public mobile telecommunications services

B.15.1 In view of the need to maintain the satisfactory provision of 2G services which are supported solely by the 900 MHz and 1800 MHz bands until they are naturally phased out by market forces, the Authority has decided to impose a new Special Condition in the UCLs granted for provision of public mobile telecommunications services such that the Licensees are required to seek the prior consent of the Authority and to make satisfactory arrangements for the affected customers before the phasing out of 2G mobile services. Please refer to Special Condition 10.4 of the Licence as set out in Appendix 1 of the Notice. Pursuant to that licence condition, the Licensees are also required to seek prior consent of the Authority for phasing out any other generations of mobile services.

³⁵ It is available at http://www.coms-auth.hk/filemanager/statement/en/upload/138/gn_201024.pdf.

³⁶ The details of the regulatory framework of femtocell deployment are available at http://tel_archives.ofca.gov.hk/en/consultations/circulardoc/femtocell_deployment.html.

B.16 Standards and type approval of radiocommunications apparatus

B.16.1 All radiocommunications apparatus, including both infrastructure equipment and customer equipment used in Hong Kong, must comply with the relevant standards or specifications as may be prescribed by the Authority and meet the necessary type approval requirements under the Hong Kong Telecommunications Equipment Evaluation and Certification (HKTEC) Scheme³⁷.

B.16.2 The Licensee must provide services to customers, who use equipment meeting the relevant technical specifications as prescribed by the Authority, on a non-discriminatory basis, irrespective of whether the equipment is acquired from the Licensee.

B.17 Universal service arrangement

B.17.1 Under section 35B of the TO, the Authority may require one or more fixed carrier licensees³⁸ to have a universal service obligation (“USO”) for provision of basic telephone services, including mainly fixed telephone lines and public payphones. At present, PCCW-HKT Telephone Limited and Hong Kong Telecommunications (HKT) Limited (as joint holders of the UCL no. 025) are designated as the universal service provider. A system of universal service contribution (“USC”) is implemented which requires USC contributing parties to share the costs of meeting the USO.

B.17.2 The providers of local fixed and mobile telecommunications services including both facility-based and service-based operators using local telephone numbers³⁹ are required to share the USC on the basis of the quantity of telephone numbers held by them for the provision of fixed and mobile telephone services.

³⁷ Information about HKTEC Scheme is available at <http://www.ofca.gov.hk/filemanager/ofca/common/Industry/telecom/standard/i421e.pdf>.

³⁸ Including unified carrier licensees authorised to provide fixed telecommunications services.

³⁹ Specifically, the USC contributing parties include fixed carrier licensees, mobile carrier licensees, unified carrier licensees authorised to provide local fixed or mobile telephone services, and SBO licensees authorised to provide class 1 service, class 2 service or class 3 service (MVNO services only).

B.18 Competition Ordinance

- B.18.1 On 14 June 2012, the Competition Ordinance (Cap. 619) (“CO”) was enacted by the Legislative Council⁴⁰. The CO provides for general prohibitions of three types of anti-competitive conduct (described as the first conduct rule, the second conduct rule and the merger rule, collectively referred to as the ‘competition rules’ in the CO). The first conduct rule prohibits anti-competitive agreements, decisions and concerted practices. The second conduct rule prohibits an undertaking that has a substantial degree of market power from abusing that power. The merger rule prohibits anti-competitive mergers. The first and second conduct rules apply to all sectors, including the telecommunications sector, in Hong Kong. At present, the merger rule applies only to a merger involving one or more undertakings that hold a carrier licence under the TO or, directly or indirectly, control an undertaking that holds such a licence.
- B.18.2 The CO has been fully in force since 14 December 2015. Under the CO, the Authority is conferred concurrent jurisdiction with the Competition Commission to investigate and bring enforcement proceedings to the Competition Tribunal in relation to the conduct of telecommunications and broadcasting operators. The Authority and the Competition Commission have signed a Memorandum of Understanding (“MoU”) to coordinate the performance of their functions over which they have concurrent jurisdiction. According to the MoU, the Authority will ordinarily take the role of lead authority on matters which fall within the concurrent jurisdiction. Where a matter involves issues that are partly within the concurrent jurisdiction and issues that are partly outside the concurrent jurisdiction, the Authority and the Competition Commission will discuss and agree how best to progress the matter case by case.
- B.18.3 The Authority and the Competition Commission have jointly issued under the CO six sets of guidelines describing how they expect to interpret and give effect to the three competition rules, and explaining the procedures for handling complaints, conducting investigations and considering applications for exclusions and exemptions⁴¹.

⁴⁰ The full text of the CO is available at <http://www.e-legislation.gov.hk>.

⁴¹ The full sets of competition guidelines are available at https://www.coms-auth.hk/en/policies_regulations/competition/co/legislation_and_guidelines_issued_under_the_co/index.html.

B.18.4 Apart from the CO, section 7Q of the TO prohibits exploitative conduct of a dominant licensee. The Authority has investigative as well as adjudicative power in enforcing section 7Q. Decisions made by the Authority under section 7Q will be subject to appeal to the Appeal Board.

B.19 Prohibition on unfair trade practices

B.19.1 Pursuant to the Trade Descriptions (Unfair Trade Practices) (Amendment) Ordinance 2012 (“TDO(A)”) enacted by the Legislative Council on 17 July 2012, the Trade Descriptions Ordinance (Cap. 362) (“TDO”) was amended from 19 July 2013 to extend its coverage to prohibit traders of goods and services in all sectors, including the telecommunications sector, from engaging in specified unfair trade practices, namely:

- (a) false trade descriptions of services (section 7A);
- (b) misleading omissions (section 13E);
- (c) aggressive commercial practices (section 13F);
- (d) bait advertising (section 13G);
- (e) bait and switch (section 13H); and
- (f) wrongly accepting payment (section 13I).

B.19.2 The Customs and Excise Department (“C&ED”) is the principal agency for enforcing the TDO, with concurrent jurisdiction conferred on the Authority to enforce the relevant provisions of the TDO(A) in relation to the commercial practices of licensees under the TO and the Broadcasting Ordinance (Cap. 562) (“BO”) that are directly connected with the provision of a telecommunications or broadcasting service under the respective ordinances. C&ED and the Authority have jointly issued the relevant enforcement guidelines which state the manner in which the C&ED and the Authority would exercise their enforcement powers and provide guidance on the operation of the TDO(A)⁴².

⁴² The enforcement guidelines are available at https://www.coms-auth.hk/filemanager/en/content_800/Enforcement_Guidelines_en.pdf.

B.20 Consumer protection measures

Guidelines for implementation of fair usage policy

B.20.1 To provide guidance to broadband service providers on how they may implement fair usage policy and to enhance the transparency of service information to facilitate better informed consumer choices, the Authority promulgated a set of mandatory guidelines on 9 November 2011⁴³ setting out the relevant guiding principles for compliance by service providers. The Licensees are required to comply with the guidelines on a mandatory basis for all new or renewed service contracts signed on or after 13 February 2012.

Measures to prevent mobile bill shock

B.20.2 The Authority has urged all mobile operators to adopt various measures to address the problem of mobile bill shock⁴⁴. To increase the transparency of the relevant service information, OFCA publishes the measures implemented by individual mobile operators on its website⁴⁵ and provides regular updates. The Licensees are expected to implement measures to prevent mobile bill shock.

Code of Practice in Relation to Billing Information and Payment Collection for Telecommunications Services

B.20.3 With a view to enhancing the transparency of pricing of chargeable items in the provision of telecommunications services by local fixed and mobile operators, a “Code of Practice in Relation to Billing Information and Payment Collection for Telecommunications Services” was issued by the Authority in October 2011⁴⁶. This code requires telecommunications service providers to provide customers with itemised billing information for verification of charges, take reasonable steps to ensure accuracy of billing and collection of payment, and report to OFCA in a timely manner in the event of any incident

⁴³ The guidelines are available at http://www.coms-auth.hk/filemanager/statement/en/upload/38/gn_201124e.pdf.

involving systematic errors in these aspects. The Licensees are expected to comply with this code and follow the practices prescribed therein.

Customer Complaint Settlement Scheme

B.20.4 The Customer Complaint Settlement Scheme (“CCSS”) is a mediation scheme set up by the telecommunications industry to help resolve billing disputes in deadlock between telecommunications service providers and their customers. The mediation service is managed and operated by an independent CCSS service centre set up under the Communications Association of Hong Kong (“CAHK”)⁴⁷. OFCA supports the CCSS by contributing the necessary funding, screening the CCSS applications against the acceptance criteria, and monitoring the performance and the governance of the scheme. The Licensees are expected to join the CCSS.

Industry Code of Practice for Telecommunications Service Contracts

B.20.5 In order to protect consumer interests and enhance transparency in the process of contract conclusion for telecommunications services, CAHK promulgated a self-regulatory “Industry Code of Practice for Telecommunications Service Contracts” in December 2010 and updated it in October 2014⁴⁸. All major fixed and mobile network operators have implemented the industry code from July 2011. The Licensees are expected to comply with this code and follow the practices prescribed therein.

Code of Practice on the Provision of Telecommunications Services for the Elderly and People with a Disability

B.20.6 To facilitate convenient use of telecommunications services by the elderly and people with a disability, a “Code of Practice on the Provision of Telecommunications Services for the Elderly and People with a Disability” was issued by the Authority in October 2010⁴⁹. The Licensees are expected

to comply with this code and follow the practices prescribed therein.

Code of Practice on Protection of Customer Information for Fixed and Mobile Service Operators

B.20.7 A “Code of Practice on Protection of Customer Information for Fixed and Mobile Service Operators” was jointly issued by the Consumer Council, Independent Commission Against Corruption, Office of the Privacy Commissioner for Personal Data and former Office of the Telecommunications Authority in June 2002⁵⁰ which sets out the good practices that should be adopted by fixed and mobile service operators to prevent unauthorized disclosure of customer information. The Licensees are expected to comply with this code and follow the practices prescribed therein as well as to adopt other standards and measures which can provide reasonably sufficient protection of customer information. The Licensees must observe the requirements of the relevant legislation relating to protection of personal data and prevention of bribery.

Code of Practice on the Handling of Customers’ Deposits and Prepayments of Charges

B.20.8 In order to protect consumer interest and to enhance consumer confidence in deposit and prepayment schemes offered by telecommunications operators, a “Code of Practice on the Handling of Customers’ Deposits and Prepayments of Charges” was issued by the Authority in April 2001⁵¹. The Licensees are expected to adopt this code and observe the guiding principles governing the handling of deposits and prepayments of charges for telecommunications services.

Code of Practice on Verification of the Addresses of Potential Customers for Mobile Telecommunications Services

B.20.9 A “Code of Practice on Verification of the Addresses of Potential Customers for Mobile Telecommunications Services” was issued by the Authority in

⁵⁰ The code is available at http://tel_archives.ofca.gov.hk/en/code/practice/cap14062002.pdf.

⁵¹ The code is available at http://tel_archives.ofca.gov.hk/en/code/cop20010426.pdf.

POLICY BACKGROUND

January 2000⁵². This code sets out the basic guiding principles for the verification of the addresses of potential customers when the customers apply for mobile telecommunications services as well as the documents that are considered to be acceptable proof of address from customers. The Authority will review and update this code where necessary in the light of developments in the telecommunications market. The Licensees are expected to comply with the latest version of this code and follow the practices prescribed therein.

Performance pledges of mobile broadband services

B.20.10 To help consumers make informed choices for mobile broadband services, mobile broadband service operators have published on a quarterly basis the performance pledges for their mobile broadband services, covering aspects related to network reliability, service restoration time, customer hotline performance, customer complaint handling and technical performance since July 2010. The performance pledges and performance statistics of individual mobile network operators are available on their respective websites and via hyperlinks at the Authority's website⁵³. The Licensees are expected to follow similar practices.

Industry Code of Practice for Chargeable Mobile Content Services

B.20.11 To safeguard consumer interests and increase the transparency of pricing information related to chargeable mobile content services ("MCS") provided by third-party content service providers ("CSPs"), CAHK issued the "Code for the Provision of Chargeable Mobile Content Services" in January 2010 and updated it in March 2017⁵⁴. This code requires all third-party CSPs, before initiating delivery of MCS to customers, to provide them with clear information on all charges, obtain clear consent from them for the provision of MCS, and set out clearly the unsubscribing mechanisms. Mobile network operators have undertaken to comply with this code and will enter into contracts to provide a delivering and billing service with only those CSPs

which comply with this code. The Licensees are expected to comply with this code and follow the practices prescribed therein.

Benchmark Code of Practice on Person-to-Person (“P2P”) Marketing Calls

B.20.12 To tackle the inconvenience caused by P2P marketing calls to the public, the Government has worked with specific sectors to establish sector-specific regulatory regimes for P2P marketing calls. In relation to the telecommunications industry, CAHK issued a “Benchmark Code of Practice on Person-to-Person Marketing Calls” on 2 March 2011⁵⁵. All major fixed and mobile network operators have adopted the benchmark code published by the CAHK and published their codes of practices on P2P marketing calls for self regulation. The Licensees are expected to adopt the benchmark code and follow the practices prescribed therein.

Code of Practice for the Provision of Mobile Television Services

B.20.13 CAHK issued a “Code of Practice for the Provision of Mobile Television Services” in August 2012⁵⁶ for the purpose of setting out the principles of good practice for the provision of mobile television services (which refers to television services delivered over wireless platform and intended for reception on the move by mobile or portable devices). The Licensees are expected to comply with this code and follow the practices prescribed therein for the provision of mobile television services.

Code of Practice on the Cessation Arrangements for Mobile Virtual Network Operator Services

B.20.14 A “Code of Practice on the Cessation Arrangements for Mobile Virtual Network Operator Services” was issued by the Authority in September 2017⁵⁷. This code provides practical guidance to relevant licensees in the event of cessation of mobile virtual network operator (“MVNO”) services in order to better protect and promote the interests of consumer of telecommunications goods and services. services to any MVNO are required to observe and comply with this code as part of their licence obligations.

B.21 Future spectrum supply

B.21.1 In accordance with the Radio Spectrum Policy Framework, the Authority publishes Spectrum Release Plan (“SRP”)⁵⁸ to inform the industry and interested parties of the potential supply of radio spectrum in the following three years. The SRP is updated every year on a rolling basis, or as required, taking into account the latest developments.

B.22 Spectrum utilization fees for spectrum assigned administratively (for fixed and other links)

B.22.1 To encourage more efficient use of the scarce radio spectrum resources, the Secretary and the Authority jointly issued a statement on 23 September 2011 setting out their decisions to impose spectrum utilization fees⁵⁹ on spectrum that is assigned to non-Government users administratively, the spectrum and the services that will attract spectrum utilization fees, the levels of spectrum utilization fee payable, and the implementation details⁶⁰.

B.22.2 The Government has completed the legislative process for implementation of the spectrum utilization fees charging scheme. The following legislation effecting the spectrum utilization fees charging scheme came into operation on 1 January 2018:

- (a) Telecommunications (Designation of Frequency Bands subject to Payment of Spectrum Utilization Fee) (Amendment) Order 2017; and
- (b) Telecommunications (Level of Spectrum Utilization Fee) (Fixed and Other Links) Regulation.

B.22.3 Under the spectrum utilization fees charging scheme, the full fee payable is

⁵⁹ Spectrum utilization fees for spectrum assigned administratively is the price set by the regulator, charged to spectrum licensees and is intended to reflect the opportunity cost of spectrum use (and thereby provide effective incentives for efficient use of spectrum).

The spectrum utilization fees would be levied two years after the implementation of the spectrum utilization fees charging scheme. After the two-year grace period (for the 24 months beginning on 1 January 2018), spectrum utilization fees would be imposed using a three-year phase-in approach, with 30% of the spectrum utilization fees payable for the 12 months beginning on 1 January 2020, 70% payable for the 12 months beginning on 1 January 2021, and the full amount payable for the subsequent (fifth) year and beyond.

B.23 Spectrum change or swap

- B.23.1 Pursuant to section 32G of the TO, the Authority has the statutory duty to promote the efficient allocation and use of spectrum as a public resource of Hong Kong. Pursuant to section 32H of the TO, the Authority is empowered to assign frequencies and bands of frequencies to users, and to vary or withdraw such assignment.
- B.23.2 The Spectrum Utilization Fees of the Frequency Bands made available for bidding in the Auction will be determined by the market through the bidding process. In order to ensure the realization of the full market value of the spectrum, there will be a prohibition on Successful Bidders swapping or otherwise transferring their holdings of the Frequency Bands assigned through the Auction in the first five years of the spectrum assignment period.
- B.23.3 For the avoidance of doubt, in relation to the spectrum assigned by the Authority to Successful Bidders as determined by the Auction, any request for subsequent change in spectrum assignment or the swap or other transfer of spectrum will not be considered until after the expiry of the first five years of the spectrum assignment. Any spectrum change, swap, or equivalent request submitted thereafter will be considered by the Authority based on the merits of each case and its approval or otherwise, and the imposition of conditions, if any, will be at the Authority's sole discretion.

B.24 Trading of spectrum

- B.24.1 Trading of spectrum is a mechanism whereby a spectrum assignee may, through bilateral negotiations, transfer all or part of the spectrum it holds to another party for the remaining duration of spectrum assignment. The Government indicated in the Radio Spectrum Policy Framework that it was inclined to introduce spectrum trading in Hong Kong in the long term, subject to a feasibility study and resolution of various implementation issues. A consultancy study on the matter was commissioned in 2017 and completed in 2018. Taking into account the findings of the consultancy study, the Government advised the Legislative Council Panel on Information Technology and Broadcasting in June 2018 that it did not see a justifiable case for introducing spectrum trading in Hong Kong both in the short term, i.e. the

next five years, and in the medium term i.e. the next six to ten years⁶¹.

B.25 Use of the 5 GHz shared band for the provision of public mobile telecommunications services

B.25.1 On 4 June 2018, the Authority issued a statement on the “Use of the 5 GHz Shared Band for the Provision of Public Mobile Services”⁶². If the Licensees are interested in making use of the 5 GHz Shared Band (i.e. 5150–5350 MHz, 5470–5725 MHz and 5725–5850 MHz) for the provision of mobile services on a shared basis, they may make separate applications to the Authority.

B.26 Judicial review of aspects of the Decision (the “Challenged Aspects of the Decision”) regarding arrangements for the frequency spectrum in the 900 MHz and 1800 MHz bands upon expiry of the existing assignments for public mobile telecommunications services and the spectrum utilization fee

B.26.1 The Challenged Aspects of the Decision are currently the subject of judicial review proceedings in the High Court of Hong Kong, Court of First Instance (“CFI”), brought by HKT on 19 March 2018 (the “Judicial Review Application”). Leave to bring the Judicial Review Application was granted to HKT on 23 March 2018. The relief sought by HKT includes, amongst others, the points set out below, and the court has discretion to grant any relief within its power:

- (a) a declaration that the Challenged Aspects of the Decision are unlawful;
- (b) an order to quash the Challenged Aspects of the Decision; and
- (c) an order to oblige the Authority and Secretary to reconsider the Challenged Aspects of the Decision after further consultation.

B.26.2 On 24 April 2018, HKT filed an application for an interim stay of the Challenged Aspects of the Decision, seeking, among other things, a stay of

POLICY BACKGROUND

the RFR Offer and the Auction process pending final determination of the Judicial Review Application (the “Stay Application”). The Stay Application was denied by the court on 24 August 2018. The substantive hearing of the Judicial Review Application was scheduled for hearing in February 2019. The CFI’s judgment may further be subject to appeal to both the Hong Kong Court of Appeal and the Hong Kong Court of Final Appeal before the Judicial Review Application is finally determined.

B.26.3 A judgment of the court could render any assignment of or a decision to assign frequency spectrum in the 900 MHz band and/or 1800 MHz band, any Licence already granted or a decision to grant a Licence to which the said assignment is related, void and unenforceable. Notwithstanding any other provision or the content of this Memorandum or the Notice, the Authority shall, at its sole discretion, take any actions it considers appropriate or necessary in response to the orders of the courts of Hong Kong at each stage of the judicial review process, taking into account the Authority’s statutory duty to promote the efficient allocation and use of the radio spectrum as a public resource of Hong Kong.

B.26.4 In the event the court grants any relief pursuant to the Judicial Review Application as sought by HKT or otherwise, including but not limited to an order quashing the Challenged Aspects of the Decision and/or obliging the Authority to reconsider the Challenged Aspects of the Decision, this may require the Authority to take steps in response which could include but are not limited to:

- (a) withdrawing the RFR Offer;
- (b) suspending the Auction in whole or in part at any stage;
- (c) terminating the Auction in whole or in part at any stage and declaring any results or provisional results of the Auction as void and unenforceable;
- (d) revoking a decision to assign frequency spectrum or grant a Licence;
- (e) revoking a frequency spectrum assignment or an already granted Licence;

POLICY BACKGROUND

- (f) varying the conditions of a decision to assign frequency spectrum or a Licence;
- (g) administratively extending the term of an existing frequency spectrum assignment to enable continuing service provision while the Challenged Aspects of the Decision are being reconsidered, and making associated arrangements (e.g. in relation to the spectrum utilization fees); and/or
- (h) adopting a different approach for the assignment of frequency spectrum in the 900 MHz and 1800 MHz bands.

B.26.5 For the avoidance of doubt, any rights which may be acquired by a Successful Bidder, either before or after the assignment of Frequency Bands, are conditional upon, or subject to, the court's determination of the Judicial Review Application at any stage in the proceedings. In particular:

- (a) The decision to assign the Frequency Bands is conditional upon, or subject to, there being no judicial order or direction, legislation or other legal impediment which would otherwise prevent the Authority from assigning the relevant Frequency Bands to the Successful Bidders or compel the Authority to reconsider the assignment of the relevant Frequency Bands. In such circumstances: the Authority shall, at its sole discretion, take any actions it considers appropriate or necessary in response to the relevant judicial order or direction, legislation or other legal impediment; the Authority shall have no further liability to the Successful Bidders in respect of such actions or rights which may have been acquired; and the Successful Bidders agree not to pursue any claims for damages or losses or any other remedy against the Authority or the Government in that regard.
- (b) The Authority may vary, cancel, withdraw or suspend a Licence pursuant to any judicial order or direction, legislation or other legal impediment which would, in the view of the Authority, make such variation, cancellation, withdrawal or suspension appropriate or necessary. In such circumstances: the Authority shall, at its sole discretion, take any actions it considers appropriate or necessary in response to the relevant judicial order or direction, legislation or other legal impediment; the Authority

POLICY BACKGROUND

shall have no further liability to the Licensees whatsoever resulting from such actions or rights which may have been acquired; and the Licensees agree not to pursue any claims for damages or losses or any other remedy against the Authority or the Government in that regard.

- B.26.6 A Bidder shall provide an undertaking, in a form set out in the Bidder Compliance Certificate at Appendix 5 of the Notice, that it acknowledges that any rights which it may acquire from the Auction are conditional upon, or subject to there being no judicial order or direction, legislation or other legal impediment which would otherwise prevent the Authority from assigning the Frequency Bands or compel the Authority to reconsider the assignment of the Frequency Bands; and that it will not pursue any claims for damages or losses or any other remedy against the Authority or the Government arising from the judicial order or direction, legislation or other legal impediment, as relevant.

B.27 Caveat to Bidders

- B.27.1 Parties interested in the Auction should be mindful of the current regulatory arrangements and possible developments given in Section B when making their business decision to participate in the Auction.

C. The Licence

C.1 Terms and conditions of the Licence

C.1.1 The Licence to be issued to each Successful Bidder will be a UCL valid for 15 years starting from the date of issue of the Licence.

C.1.2 The Licence will contain the General and Special Conditions substantially in the form set out in Appendix 1 of the Notice. The General Conditions are prescribed in the Telecommunications (Carrier Licences) Regulation (Cap. 106V) whereas the Special Conditions are specified by the Authority for the imposition of those licence conditions specific to the Licensee in the provision of public telecommunications services. For the avoidance of doubt, the Authority reserves the right to amend the Conditions as appropriate or necessary prior to formal Licence grant.

C.2 Assignment of the Frequency Bands

C.2.1 The Frequency Bands will be assigned for use by the Successful Bidders for a period of 15 years. This assignment of the Frequency Bands shall not prejudice the generality of the power exercisable by the Authority under the TO including section 32H.

C.2.2 For the avoidance of doubt, there is no legitimate expectation of any right of renewal or right of first refusal upon expiry of assignment of any of the Frequency Bands.

C.3 Compliance with auction rules

C.3.1 A Successful Bidder must comply with the terms and conditions of the Notice. If it is found, to the satisfaction of the Authority, to have been involved in an act, or omission of any act, constituting a breach of the terms and conditions of the Notice, then the Authority may cancel, withdraw or suspend the Licence or assignment of the relevant Frequency Bands under the Licence.

C.4 Control of interference

C.4.1 The Licensee is required to take all reasonable measures to install, maintain

and operate the network and the service in such a manner as not to cause any harmful interference to any lawful telecommunications services within or outside Hong Kong. If necessary, the Authority may issue directions requiring the Licensee to take such measures as may be necessary to prevent interference.

C.4.2 The Licensees of the Frequency Bands shall coordinate and agree with one another on the technical measures to be taken to minimize any mutual interference between them.

C.4.3 The Licensees shall at all times ensure that no harmful interference should be caused to users of the spectrum in the Mainland. The Authority will have ongoing discussions with the relevant Mainland authorities to coordinate the use of frequencies in the boundary areas between Hong Kong and the Mainland. The Licensee shall be required to comply with such requirements as may be imposed by the Authority as a result of the frequency coordination from time to time.

C.5 Permitted service and technical standard to be adopted

C.5.1 The Frequency Bands shall be used for the provision of public mobile telecommunications services; and the additional use of Frequency Bands for the provision of public fixed services shall be subject to the approval by the Authority in accordance with the frequency allocation in the Hong Kong Table of Frequency Allocations issued by OFCA. Currently, Frequency Bands A1 to A4 are allocated for both fixed and mobile services while Frequency Bands B1 to B5 are allocated for mobile service only. For the avoidance of doubt, the Licence authorises the Licensee to only provide services licensable under the TO. Nothing in the Auction or in the Licence authorizes the Licensee to provide any service subject to licensing, permission, approval or other kinds of authorization under any other ordinance.

C.5.2 The Licensees will be free to adopt any widely recognised international standards for the provision of public mobile telecommunications services using the assigned Frequency Bands. Nevertheless, as mentioned in B.15 above, the Licensee shall seek the prior written consent of the Authority and make proper and appropriate arrangements for the affected customers to the satisfaction of the Authority before ceasing to provide any generation of

mobile service.

- C.5.3 Notwithstanding the technology neutrality principle, the Licensee shall comply with all the relevant technical specifications, if any, which may be prescribed from time to time by the Authority under section 32D of the TO.

C.6 Network and service rollout requirement

- C.6.1 The Relevant Licensee shall meet the following network and service rollout requirement:

- (a) where the scope of the service authorised under the Licence includes a mobile service, within five years from the issue of the Licence, coverage of the network and the service shall be provided, and shall be maintained thereafter, to a minimum coverage of 90% of the population of Hong Kong, and shall be maintained thereafter, for the provision of the service.

AND

- (b) where the scope of the service authorised under the Licence includes a fixed service as approved by the Authority, within five years from the issue of the Licence,
- (i) coverage of the network and the service shall be provided, and shall be maintained thereafter, to a minimum of 200 commercial and/or residential buildings in Hong Kong; and
- (ii) a minimum of 50 hubs⁶³ shall be established, and shall remain in operation thereafter, for the provision of the service.

- C.6.2 In determining the scope of the service that a Relevant Licensee is to be authorised to provide, the Authority will consider the service proposal of the Relevant Licensee. For details of the network and service rollout requirement of the Relevant Licensee, please refer to Schedule 8 of the Licence which is given in Appendix 1 of the Notice.

⁶³ A hub is considered to be established if it has been equipped with the radio transceiver unit(s) employing the assigned spectrum and is operational to serve a cluster of buildings.

C.7 Performance Bond for network and service rollout requirement

C.7.1 To ensure compliance with the network and service rollout requirement within five years from the issue of the Licence, the Relevant Successful Bidders who are required to lodge a Performance Bond with the Authority to guarantee the network and service rollout obligations include: (a) Successful Bidders who have newly acquired spectrum in the 900 MHz and 1800 MHz bands; (b) Existing Assignees which are assigned Frequency Bands where 50% or more of the spectrum in any of these Frequency Bands is not currently held by them; and (c) Existing Assignees which are assigned Frequency Bands where 50% or more of the spectrum in any of these Frequency Bands is currently held by them but they fail to provide network coverage figures demonstrating to the satisfaction of the Authority that its network operating with the spectrum concerned has already fulfilled the 90% minimum population coverage requirement on or before 12 May 2020 for Frequency Bands B1 to B5, and on or before 30 January 2021 for Frequency Bands A1 to A4. The Relevant Successful Bidders must provide the Performance Bond issued by a Qualifying Bank in the amount as given in Figure 3 below on or before 12 November 2020 for Frequency Bands B1 to B5, and on or before 30 July 2021 for Frequency Bands A1 to A4⁶⁴. The form of the Performance Bond for network and service rollout requirement is provided in Schedule A of the Licence, which is given in Appendix 1 of the Notice.

Figure 3: Frequency Band and Performance Bond

Frequency Band	Performance Bond
A1	HK\$100 million
A2	HK\$100 million
A3	HK\$100 million
A4	HK\$50 million
B1	HK\$50 million
B2	HK\$50 million
B3	HK\$50 million
B4	HK\$50 million
B5	HK\$50 million

C.7.2 If an Existing Assignee obtains spectrum in a Frequency Band in the Auction where 50% or more of the spectrum in that Frequency Band was originally held by it, it has to provide network coverage figures demonstrating to the

⁶⁴ Pursuant to section 34(1B) of the TO, the licensee shall provide to the Authority a duly issued performance bond in favour of the Government.

satisfaction of the Authority that its network operating with the spectrum within that Frequency Band fulfils the 90% minimum population coverage requirement on or before 12 May 2020 for Frequency Bands B1 to B5, and on or before 30 January 2021 for Frequency Bands A1 to A4. Otherwise, it will be required to submit a Performance Bond of the required amount on or before 12 November 2020 for Frequency Bands B1 to B5, and on or before 30 July 2021 for Frequency Bands A1 to A4, as detailed in paragraph C.7.1 above to ensure its compliance with the network and service rollout requirement within five years from the issue of the Licence.

C.7.3 The liability under the Performance Bond will cease when the Authority is satisfied that the Relevant Licensee has fully complied with the network and service rollout requirement.

C.8 Open Network Access requirement

C.8.1 The Licensee will not be subject to any Open Network Access requirement.

C.9 Domestic Roaming requirement

C.9.1 The Licensee will not be subject to any Domestic Roaming requirement.

C.10 Denial of service to suspected stolen handsets

C.10.1 The Authority will reserve the power to direct the Licensee not to provide services to any person who possesses or uses a radiocommunications apparatus which is stolen or suspected stolen goods.

C.11 Payment of Spectrum Utilization Fees

C.11.1 As stipulated in the relevant provisions of the Regulation and the Order, the use of the Frequency Bands in the Auction is subject to the payment of Spectrum Utilization Fees.

C.11.2 A Successful Bidder may choose to pay the Spectrum Utilization Fees in full as a lump sum payment upfront; or annually in 15 instalments with the first instalment equivalent to the lump sum amount divided by 15 and for each subsequent instalment an amount equal to the Spectrum Utilization Fee

payable in the immediately preceding instalment increased by 2.5%.

C.11.3 If a Successful Bidder chooses to pay the Spectrum Utilization Fees by annual instalments, it is required to maintain at all times throughout the whole new assignment period a rolling performance bond to guarantee payment of Spectrum Utilization Fees payable in the ensuing five years, or the Spectrum Utilization Fees payable for the remaining duration of the new assignment term if it is less than five years, in the form of Schedule B attached to the Licence.

C.12 Payment of licence fee

C.12.1 Unified carrier licensees are required to pay annual licence fees which are stipulated in Schedule 3 to the Telecommunications (Carrier Licences) Regulation (Cap. 106V). The licence fees are set on a cost-recovery basis to cover the administrative cost of OFCA in administering the licences. The amount of licence fees may be reviewed from time to time and adjusted to reflect more closely the prevailing administrative costs of OFCA.

C.12.2 The current annual licence fee payable on the issue and on each anniversary of the issue of a UCL in each year while the licence remains in force shall be the sum of the items given in Figure 4 below, where applicable:

Figure 4: Annual licence fee schedule

	Particulars	Annual licence fee

For details, please refer to schedule 3 to the Telecommunications (Carrier Licences) Regulation (Cap. 106V).

C.12.3 For the purpose of determining the licence fees payable, the quantity of customer connections, subscriber numbers, base stations and frequencies assigned shall be those authorised or in service at the time when the UCL concerned is issued or on each anniversary of the issue date.

C.12.4 The Secretary and the Authority jointly launched a public consultation on 8 June 2018 to invite views from the industry and interested parties on the proposed reduction of licence fees for five types of licences issued under the TO, and the proposed introduction of a new wireless Internet of Things (“WIoT”) device fee under UCL⁶⁵. Subject to the views and comments received and the decision of the Secretary and the Authority on the matter as well as the necessary legislative amendments, the proposed licence fees reduction and the proposed introduction of the new fee component for WIoT devices under UCLs will take effect earliest from January 2019.

C.13 Revocation of the Licence

C.13.1 Under section 34(4) of the TO, the Authority may cancel or withdraw the Licence, or suspend the Licence for a period not exceeding 12 months, in the

⁶⁵ The consultation paper is available at https://www.coms-auth.hk/filemanager/en/content_711/cp20180608_e.pdf.

event of any contravention of the Licence, the TO, or any condition to which the Licensee is subject. In exercising such a power, the Authority will give the Licensee a reasonable opportunity to make representations. The exercise of this power must be proportionate and reasonable in relation to the contravention concerned.

- C.13.2 The Chief Executive in Council may, under section 34(4) of the TO, cancel or suspend the Licence at any time if she considers that the public interest so requires.

C.14 Transfer and assignment of the Licence

- C.14.1 The Licensee may, only with the prior written consent of the Authority, and subject to such reasonable conditions as the Authority thinks fit, transfer the Licence or any permission, right or benefit under the Licence. In giving its consent, the Authority will have regard to such matters as it thinks fit including but not limited to the effect which the transfer will have on market structure and the financial and technical competence and viability of the transferee.

C.15 Change of ownership

- C.15.1 The merger rule under the CO provides that an undertaking must not, directly or indirectly, carry out a merger that has, or is likely to have, the effect of substantially lessening competition in Hong Kong. At present, the merger rule applies only to a merger involving one or more undertakings that hold a carrier licence under the TO or, directly or indirectly, control an undertaking that holds such a licence.
- C.15.2 There is no requirement to notify the Authority of a merger falling within the merger rule. However, in order to assist merging parties and their advisers when planning mergers, the Authority is willing to provide informal advice on a proposed merger on a confidential basis. For details of the merger rule and how the Authority intends to interpret and give effect to the merger rule, please refer to schedule 7 of the CO⁶⁶ and the Guideline on the Merger Rule

jointly issued by the Authority and the Competition Commission⁶⁷.

C.16 Service contracts and dispute resolution

C.16.1 The Licensees shall comply with all codes of practice issued by the Authority from time to time in respect of the requirements to apply in the contracting of telecommunications services to end users.

C.16.2 The contracting requirements referred to in paragraph C.16.1 above may include the following:

- (a) the style, format and structure of service contract documentation;
- (b) the manner of entering into and terminating service contracts;
- (c) the information to be included in or in connection with service contracts and the performance of the services;
- (d) the submission of disputes between end users and the providers of telecommunications services to independent dispute resolution, pursuant to a scheme approved by the Authority; and
- (e) other terms and conditions or provisions for the protection of the interests of end users.

C.16.3 Before issuing any such codes of practice, the Authority will carry out such consultation as is reasonable in the circumstances.

⁶⁷ The Guideline is available at https://www.coms-auth.hk/filemanager/en/content_923/comp_guide3_en.pdf.

D. The Auction

D.1 Introduction

D.1.1 The Authority has decided that the Frequency Bands will be assigned and the Spectrum Utilization Fees payable for use of the Frequency Bands will be determined by the Auction. The Auction will be in the form of a simultaneous multiple round ascending auction. Bidding in respect of all Frequency Bands will be conducted simultaneously. The Spectrum Utilization Fee payable for the use of each Frequency Band will be determined by the Standing Highest Bid for the Frequency Band at the end of the Bidding Stage.

D.3.5 Each Application must contain an address, telephone and fax numbers in Hong Kong to which notifications regarding the Auction process may be sent.

D.3.6 All interested parties, including new entrants and incumbent licensees, may participate in the Auction. They may participate on their own and/or cooperate with others in the form of a joint venture or other types of agreement (subject to the terms and conditions of the Notice, such as in relation to anti-collusion; and to the CO).

D.3.7 There is no foreign ownership restriction on the Bidders.

D.4 Deposit

Amount of Deposit

D.4.1 On submission of an Application and as a condition of qualification, a Bidder must provide a Deposit. The Deposit shall be in such amount as specified in Figure 7 below. The Authority will take into account the amount of the Deposit provided by the Bidder in determining the number of Eligibility Points (“EPs”) to be attributed to the Bidder for the first Round of the Bidding Stage. Each Frequency Band will be attributed a number of EPs according to its bandwidth. Notwithstanding the Deposit provided by the Bidder, the maximum number of EPs to be attributed to the Bidder is subject to the Spectrum Cap. Details of the Spectrum Cap and the relevant EPs attributed

to each Frequency Band are described in paragraphs D.5.1 and D.6.29 below. The Activity Level of a Bidder will be restricted by the number of EPs attributed to it. Details of the activity rules are described in paragraphs D.6.28 – 45 below.

Figure 7: Deposit and Eligibility Points to be attributed to Bidders

Deposit	Eligibility Points to be attributed to Bidder for the first Round
HK\$380 million	1
HK\$760 million	2
HK\$1,140 million	3
HK\$1,520 million	4
HK\$1,900 million	5
HK\$2,280 million	6
HK\$2,660 million	7
HK\$3,040 million	8
HK\$3,420 million	9

Form of Deposit

D.4.2 The Deposit can be provided:

- in cash, paid to the Authority’s Account⁶⁸ at the Deposit Bank (see paragraph E.1.6 below) by telegraphic transfer, with accompanying information which identifies the relevant Bidder; or
- by a Letter of Credit issued by a Qualifying Bank.

D.4.3 Bidders should note that, if the Deposit is provided in cash, funds representing the Deposit must have been cleared by 4:00 pm on the later of the Application Dates.

D.4.4 If the Deposit is provided by a Letter of Credit, the Letter of Credit must remain valid and fully effective until the Deposit is returned to the relevant Bidder in accordance with the terms and conditions of the Notice. A Bidder who fails to maintain its Letter of Credit valid and fully effective will not be qualified to participate in the Auction or will be disqualified from the Auction (as the case may be).

⁶⁸ Pursuant to section 32I(5)(d) of the TO, Bidders shall lodge the Deposit with the Authority.

Penalties and return of Deposit

D.4.5 Subject to the terms and conditions of the Notice, the Deposit will be returned to a Bidder if one of the following events occurs:

- (a) when the Bidder fails to be qualified;
- (b) when the Bidder is disqualified;
- (c) if the Bidder is qualified but has not become the Provisional Successful Bidder at the end of the Bidding Stage;
- (d) when the Bidder has become the Provisional Successful Bidder and provided to the Authority a Letter of Credit to guarantee payment of the Spectrum Utilization Fees.

D.4.6 In each of the above cases, the Authority will return the Deposit to the Bidder as soon as practicable provided that:

- (a) there is no outstanding investigation being carried out by the Authority against that Bidder in respect of any suspected contravention of the terms and conditions of the Notice; and
- (b) if any amounts have been forfeited or deducted by the Authority in accordance with the terms and conditions of the Notice with respect to that Bidder,
 - (i) where the Deposit is in cash, the Deposit will be returned less the aggregate amount of any Penalties and any amounts deducted by the Authority as described in paragraphs D.6.36 – 37 below, and
 - (ii) where the Deposit is a Letter of Credit, the Authority shall make a claim under the Letter of Credit to the extent of the aggregate amount of the Penalties and any amounts deducted by the Authority as described in paragraphs D.6.36 – 37 below.

D.4.7 If a Bidder's Deposit is forfeited either entirely or in part by way of Penalty under the Notice, the deduction will be deemed to have occurred at the time the Bidder is notified of the Penalty by the Authority.

Interest on cash Deposit

- D.4.8 Where the Deposit is in cash, it will earn interest at the rate available to the Authority from the Deposit Bank in which the cash is deposited.
- D.4.9 Interest earned on a cash Deposit will be returned to Bidders with the Deposit.
- D.4.10 Bidders should note that, where a Penalty is deducted during the course of the Auction, that portion of the Deposit will not receive any interest.

D.5 Bidder association rules and qualification

Spectrum Cap and Bidder association rules

- D.5.1 Each Bidder or group of Connected Bidders is not allowed to acquire in the Auction an amount of spectrum exceeding the Spectrum Cap. The Authority will determine the Spectrum Cap as:
- (a) 90 MHz for the aggregate amount of spectrum in the 900 MHz and 1800 MHz bands (with a sub-cap of 20 MHz for spectrum in the 900 MHz band) if the Bidder or any Bidder in a group of Connected Bidders is not an Existing Assignee and has no Connection to any Existing Assignee;
 - (b) the difference between 90 MHz for the aggregate amount of spectrum in the 900 MHz and 1800 MHz bands (with a sub-cap of 20 MHz for spectrum in the 900 MHz band) and the amount of the RFR Spectrum accepted under the RFR Offer by an Existing Assignee which is the Bidder or any Bidder in a group of Connected Bidders; or
 - (c) the difference between 90 MHz for the aggregate amount of spectrum in the 900 MHz and 1800 MHz bands (with a sub-cap of 20 MHz for spectrum in the 900 MHz band) and the amount of the RFR Spectrum accepted under the RFR Offer by an Existing Assignee to which the Bidder or any Bidder in a group of Connected Bidders has a Connection.

For Spectrum Cap calculation purpose, the spectrum in the 900 MHz and 1800 MHz bands means a total of 200 MHz of spectrum, comprising 2 x 25 MHz in the frequency ranges of 890 – 915 MHz paired with 935 – 960 MHz

THE AUCTION

and 2 x 75 MHz in the frequency ranges of 1710 – 1785 MHz paired with 1805 – 1880 MHz.

D.5.2 An Existing Assignee refers to an incumbent spectrum assignee which has been assigned the use of frequency spectrum in the 900 MHz and 1800 MHz bands with expiry of assignment on 11 January 2021 and on 29 September 2021 respectively.

D.5.3 A Connected Bidder refers to a Bidder that has a Connection to another Bidder.

Definition of Connection

D.5.4 Connection has, for the purpose of the Notice and this Section D, the following meaning. A company (Company A) has a Connection to another company (Company B) if:

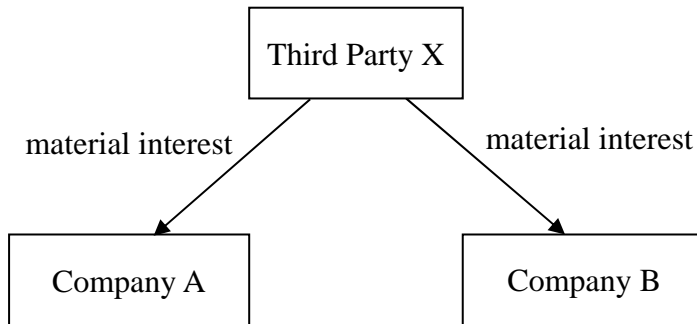

- (a) Company A holds a “material interest” in Company B; or

- (b) Company B holds a “material interest” in Company A; or

- (c) Company A and Company B are under common ownership of a third party who holds a “material interest” in both Company A and Company B.

D.5.5 A “material interest” refers to a direct or indirect interest of one of the following:

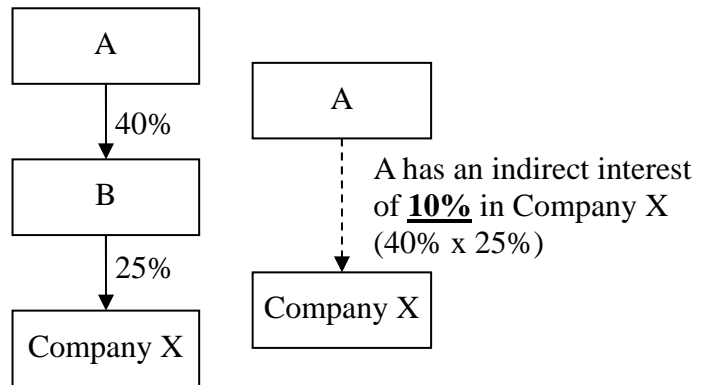

- (a) a holding of or a right to acquire or subscribe for more than 25% of the issued share capital of the body corporate;
- (b) a holding of or a right to acquire voting power in respect of more than 25% of the issued share capital of the body corporate;
- (c) control of the body corporate through holding of, a right to acquire or having voting power of 50% or more of the issued share capital of the body corporate, or through other means by which the affairs of the body corporate are conducted according to the wishes of the holding party.

D.5.6 Bidders should note that, indirect interest (e.g. interest held through nominees or custodians) and conditional entitlement (e.g. interest conditional on terms of a loan agreement) shall be taken into account. For details, please refer to paragraphs 1.5 and 1.6 of the Notice.

D.5.7 In determining whether a person has a material interest indirectly in a body corporate, the extent of the interest of the person in the body corporate will be calculated as follows:

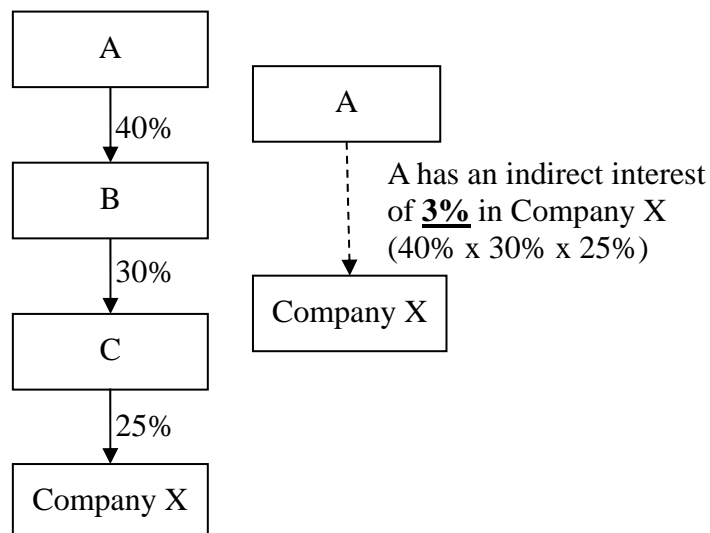

- (a) If there is one interposed person, the percentage is arrived at by multiplying the percentage representing the extent of the interest of the person in the interposed person by the percentage representing the extent of interest of the interposed person in the body corporate.

Example:

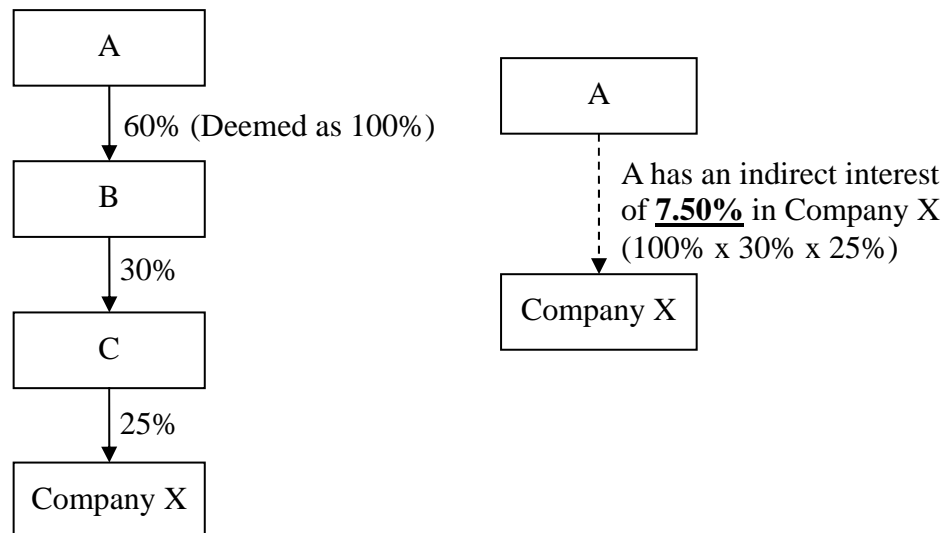

- (b) If there is a series of interposed persons, the percentage is arrived at by multiplying the percentage representing the extent of the interest of the person in the first interposed person in the series by:
- (i) the percentage representing the extent of interest of each interposed person (other than the last interposed person) in the series in the next interposed person in the series; and
 - (ii) the percentage representing the extent of the interest of the last interposed person in the series in the body corporate.

Example:

D.5.8 For any interposing interest described in paragraph D.5.7(a)-(b) above, where such interest exceeds 50%, it shall be deemed as 100%.

Example:

Procedures for dealing with pre-existing Bidder association

D.5.9 After the Application Dates, the Authority will publish a Bidder Notice to announce the identity of each Bidder which has submitted an Application and will specify a date by which each of the Bidders must notify the Authority whether or not it is a Connected Bidder in relation to another Bidder, by submitting a Connected Bidder Statutory Declaration. Not only would the announcement of the Bidders’ identities provide important information for Bidders to make the Connected Bidder Statutory Declaration, it would also help prevent market speculation. (For the avoidance of doubt, Bidders mentioned in the Bidder Notice have not been determined as Qualified Bidders.)

D.5.10 If the Authority determines that two or more Bidders are Connected Bidders, the Authority will publish the identities of the Connected Bidders and will specify a deadline by which the Connected Bidders must (a) make all necessary arrangements so as to satisfy the Authority that they cease to be Connected Bidders in relation to each other, and (b) jointly submit to the Authority a notification with documentary proof of the arrangements that they have made. The notification should be duly signed by two Authorised Representatives of each of the Connected Bidders. Any Bidder failing to

satisfy the Authority that it is not a Connected Bidder in relation to another Bidder will not be eligible as a Qualified Bidder.

D.5.11 The arrangements that may be taken by the Connected Bidders under paragraph D.5.10 above may include one of the following:

- (a) reorganise themselves so that they cease to be Connected Bidders;
- (b) withdraw their Applications such that only one of the Connected Bidders remains a Bidder.

D.5.12 The Authority may, taking into account all the relevant considerations set out in paragraph 1.6 of the Notice, determine that a Connection shall be disregarded. Any such determination may be revoked at any time by the Authority in the event of any change in circumstances which it considers to be material to that determination.

Qualification requirements

D.5.13 To be eligible as a Qualified Bidder, the Bidder must satisfy the Authority of all of the following:

- (a) it has duly submitted an Application (including the Application Form containing all requested information and supporting documents, Bidder Compliance Certificate and the Deposit);
- (b) it complies with or is capable of complying with all the undertakings given in the Bidder Compliance Certificate; and
- (c) it is not a Connected Bidder in relation to another Bidder.

D.5.14 The Authority will publish a Qualified Bidder Notice to announce the identities of all the Qualified Bidders. For the avoidance of doubt, the objective of the qualification exercise is to finalise the Bidders qualified to take part in the Auction. Nothing in the qualification exercise or in the Auction shall be construed as an approval of proposals made by the Qualified Bidders in their Applications which are subject to the requirements of licensing or approval of the relevant authorities under the TO or any other ordinance or otherwise unrelated to the Auction.

No Bidding Stage in case of no more than one Qualified Bidder

- D.5.15 If there is no Bidder or no Qualified Bidder, the Authority will publish a notice that the Bidding Stage will not take place. The Authority will review this outcome and the accompanying circumstances to assess the way forward.
- D.5.16 If there is only one Qualified Bidder, the Bidding Stage will not take place. The Authority will notify that Qualified Bidder accordingly and specify a date by which that Qualified Bidder must submit a Frequency Band Selection Form.
- D.5.17 In the Frequency Band Selection Form, the only Qualified Bidder is required to indicate the Frequency Bands it wishes to be assigned, subject to the Spectrum Cap. The Frequency Band Selection Form must be duly completed in accordance with the instructions contained in that form and signed by two Authorised Representatives of the Qualified Bidder.
- D.5.18 The Frequency Band Selection Form will not be approved by the Authority if it is not completed in accordance with the specified instructions or is unclear, or if it contains a selection of Frequency Bands exceeding the Spectrum Cap.
- D.5.19 Upon the Authority's approval of the Frequency Band Selection Form, the Qualified Bidder will be the Provisional Successful Bidder. The Spectrum Utilization Fee payable by the Provisional Successful Bidder will be the total amount of the Minimum Fees for the selected Frequency Bands. Procedures and requirements in relation to the Grant Stage as set out in Part 5 of the Notice shall then apply to the Provisional Successful Bidder.
- D.5.20 If the Frequency Band Selection Form is not completed in accordance with the specified instructions or is otherwise unclear, the Authority will ask the Qualified Bidder to make such clarifications as may reasonably be required. If the Qualified Bidder fails to select a Frequency Band as required within the specified period or fails to give such clarification as required by the Authority, the Qualified Bidder will not be entitled to the grant of a Licence and the Authority shall forfeit an amount (up to the full amount of its Deposit) by way of Penalty or make a claim under the Letter of Credit to the extent of the relevant amount of the Penalty.

D.6 Bidding procedures

Participation in the Bidding Stage

D.6.1 Where there is more than one Qualified Bidder, the Bidding Stage will be conducted to determine which of the Bidders shall become Provisional Successful Bidders and the amount of Spectrum Utilization Fee payable for each Frequency Band. Only Qualified Bidders will be eligible for participation in the Bidding Stage. From this part onwards, any reference to a Bidder shall mean a Qualified Bidder.

D.6.2 At least two Business Days before the commencement of the Bidding Stage, the Authority will, by a Bidding Stage Notice, provide to each Qualified Bidder the date on which and the time at which the Bidding Stage will commence.

Communication system

D.6.3 The Authority will use a communication system to send bidding information to Bidders and to receive submission from Bidders. The communication system will consist of:

- (a) an Internet-based software platform; and
- (b) a back-up system of telephones and facsimile machines.

D.6.4 Prior to the Bidding Stage, Bidders will be provided with:

- (a) IP addresses, passwords, digital certificates and manuals for access and use of the software platform; and
- (b) telephone numbers, facsimile numbers, passwords and forms in case of contingency where the back-up system is used.

D.6.5 The Internet-based software platform works on a wide range of operating systems and Internet browsers. Bidders will be required to install the digital certificates needed for authentication and data encryption. System requirement details will be provided to Bidders in the Bidder's manual.

THE AUCTION

- D.6.6 Bidders will be invited to attend training and mock auction sessions in order to familiarize themselves with the use of the software platform.
- D.6.7 Each Bidder should deploy its own resources to resolve the technical problems of its information technology system during the Bidding Stage. In the event that a Bidder encounters technical problems that cannot be resolved immediately, the Bidder should without delay notify the Authority of the problems. The Authority may at its discretion allow the Bidder to receive bidding information and make bidding submission via the backup system of telephones and facsimile machines.

Structure of the bidding procedures

- D.6.8 The Bidding Stage will take the form of a simultaneous multiple round ascending auction. Bidding in respect of all Frequency Bands will be conducted simultaneously and will consist of one or more bidding Rounds in which Bidders may submit bids for the Frequency Bands in accordance with the activity rules described below.
- D.6.9 In each Round, the Authority will specify a fixed Round Price for each Frequency Band. Bidders may choose to submit a Bid or not to submit a Bid at the Round Price. Bidders have no discretion to submit Bids at a price higher or lower than the Round Price.
- D.6.10 At the end of each Round, the Authority will determine a Standing Highest Bidder for each Frequency Band (see paragraphs D.6.26 – 27 below for details).

Round Prices

- D.6.11 In the first Round, the Round Price for each Frequency Band will be set at the Minimum Fee as given in Figure 6 above.
- D.6.12 As the Bidding Stage proceeds from Round to Round, the Authority may adjust the Round Price as it thinks appropriate. In general, the Authority is minded to adjust the Round Price for a Frequency Band as follows:

THE AUCTION

- If one or more Valid Bids were received for a Frequency Band in the immediately preceding Round, the Round Price for that Frequency Band will be adjusted upward.
- If no Valid Bid was received for a Frequency Band in the immediately preceding Round but there is a Standing Highest Bid for that Frequency Band, the Round Price for that Frequency Band may be kept unchanged or adjusted downward. In any event, the adjusted Round Price will not be less than the Standing Highest Bid.
- If no Valid Bid was received for a Frequency Band in the immediately preceding Round and there is no Standing Highest Bid for that Frequency Band, the Round Price may be adjusted downward. In any event, the adjusted Round Price will not be less than the Minimum Fee for that Frequency Band.

Scheduling of Rounds

D.6.13 Rounds will be scheduled by the Authority at its sole discretion. The Authority plans to schedule the Rounds between 9:00 am and 5:30 pm on Business Days. The Authority anticipates that a Round will not last for less than 10 minutes or more than 60 minutes. The Authority may re-schedule the time of a Round as it thinks fit. For example, if all Bidders have already made their submissions, the Authority may end the Round early.

D.6.14 The Authority may, at its discretion, publish details of the anticipated schedule for the following Business Day in advance. However, the Authority reserves the right to deviate from the schedule at any time. In case of variation of the start time of a Round, Bidders will be given a notice at least 10 minutes before a Round commences.

D.6.15 The Authority may in exceptional circumstances cancel and re-conduct a Round/a series of Rounds (e.g. in case of adverse weather condition or in case of manifest errors).

Bidding information for Bidders

D.6.16 Before the start of each Round, the Authority will notify each Bidder of the following information:

THE AUCTION

- the date on and the time at which the Round will start and end;
- the Round Price for each Frequency Band;
- the number of Valid Bids (if any) received for each Frequency Band in the immediately preceding Round;
- the Frequency Band in respect of which the Bidder is the Standing Highest Bidder (if any);
- the amount of the Standing Highest Bid for each Frequency Band (if any);
- the total number of (remaining) Waivers that may be exercised by the Bidder; and
- the total number of (remaining) Withdrawals that may be exercised by the Bidder.

D.6.17 All bidding information will be sent to Bidders via the Internet-based software system. In case of contingency, the Authority will send the bidding information to Bidders by the back-up system of telephones and facsimile machines.

Submission of Valid Bids, etc.

D.6.18 In the first Round, a Bidder must submit a Valid Bid for at least one Frequency Band. If a Bidder fails to submit a Valid Bid in the first Round, it shall be disqualified and up to the full amount of its Deposit will be forfeited.

D.6.19 In each subsequent Round, a Bidder may elect to submit or not to submit a Valid Bid in respect of any Frequency Band. The Bidder may also submit a Withdrawal in respect of a Frequency Band if it is a Standing Highest Bidder for that Frequency Band. For submission of a Withdrawal, conditions apply. For details, please refer to paragraphs D.6.34 – 38 below.

D.6.20 In lieu of taking any action described in paragraph D.6.19 above, a Bidder may submit a Waiver. If a Bidder fails to take any action described in paragraph D.6.19 above and fails to submit a Waiver, a Waiver will be deemed to have been submitted by that Bidder. For submission of a Waiver and for

the application of a deemed Waiver, conditions apply. For details, please refer to paragraphs D.6.39 – 45 below.

- D.6.21 The Internet-based software platform will not display the bidding decision such as a Valid Bid, a Withdrawal or a Waiver, as the case may be, of each Bidder to the Authority until expiry of each Round. The Authority will keep all the bidding decisions of the Bidder confidential.

Method for submitting Valid Bid, Withdrawal or Waiver

- D.6.22 A Valid Bid, a Withdrawal or a Waiver must be submitted by using the Internet-based software platform maintained by the Authority and the bidding form generated by that software platform. To access and to use the software platform, the Bidder must identify itself by the e-certificate and the passwords supplied by the Authority.

- D.6.23 In case of contingency, the Authority may at its discretion allow a Bidder to make submission via the backup system of telephones and facsimile machines. In such case, the Bidder must use the form specified by the Authority and identify itself with the password supplied by the Authority.

- D.6.24 A Valid Bid, a Withdrawal or a Waiver must be received by the Authority within the specified duration of the Round. The time displayed by the software platform shall be determinative.

- D.6.25 A Valid Bid, a Withdrawal or a Waiver, once submitted, shall not be amended, substituted or withdrawn.

Determination of Standing Highest Bid for each Round

- D.6.26 At the end of each Round, the Authority will determine the Standing Highest Bid among the Valid Bids for each Frequency Band as follows:

- (a) If no Valid Bids are received for a Frequency Band, then there will be no Standing Highest Bid for that Frequency Band (unless there is a Standing Highest Bid in the immediately preceding Round in which case that Standing Highest Bid will remain as the Standing Highest Bid for that Frequency Band);

THE AUCTION

- (b) If only one Valid Bid is received for a Frequency Band, then that Valid Bid will be the Standing Highest Bid for that Frequency Band; and
- (c) If two or more Valid Bids are received for a Frequency Band, then the Standing Highest Bid for that Frequency Band will be selected by the software platform at random.

D.6.27 Where a Bidder becomes a Standing Highest Bidder in respect of a Frequency Band, it should make its own commercial and strategic decision as to whether or not to submit a Valid Bid for that Frequency Band at a higher Round Price in the immediately following Round.

Activity rules

D.6.28 As a tool to maintain the Activity Level of the Bidders and to prevent any of the Bidders from bidding for spectrum exceeding the Spectrum Cap, there will be rules governing the activities of the Bidders during the Bidding Stage.

D.6.29 Each Frequency Band will be attributed 1 or 2 EPs depending on its bandwidth. The number of EPs attributed to each Frequency Band is specified in Appendix 2 of the Notice and is also shown in Figure 8 below.

Figure 8: Eligibility Points attributed to each Frequency Band

Frequency Band	Frequency range (MHz)	Bandwidth (MHz)	Eligibility Points required for bidding the Frequency Band
A1	1710 – 1720 paired with 1805 – 1815	2 x 10 MHz	2
A2	1730 – 1740 paired with 1825 – 1835	2 x 10 MHz	2
A3	1770 – 1780 paired with 1865 – 1875	2 x 10 MHz	2
A4	1780 – 1785 paired with 1875 – 1880	2 x 5 MHz	1
B1	890 – 895 paired with 935 – 940	2 x 5 MHz	1
B2	895 – 900 paired with 940 – 945	2 x 5 MHz	1

THE AUCTION

Frequency Band	Frequency range (MHz)	Bandwidth (MHz)	Eligibility Points required for bidding the Frequency Band
B3	900 – 905 paired with 945 – 950	2 x 5 MHz	1
B4	905 – 910 paired with 950 – 955	2 x 5 MHz	1
B5	910 – 915 paired with 955 – 960	2 x 5 MHz	1

- D.6.30 A Bidder must have the required number of EPs in order to bid for the Frequency Bands. If a Bidder wishes to bid for Frequency Bands A1, B1 and B2 for instance, it must have 4 EPs in order to bid for the three Frequency Bands.
- D.6.31 For the first Round, the number of EPs attributed to each Bidder will be determined by the amount of Deposit it has submitted, as described in paragraph D.4.1 and Figure 7 above. The Bidder may decide how many EPs it requires and pay the relevant amount of Deposit. Subject to the Spectrum Cap, no more than 9 EPs will be attributed to any one Bidder.
- D.6.32 For each subsequent Round, the number of EPs attributed to each Bidder will be equal to the Activity Level of the Bidder in the immediately preceding Round, unless the Bidder submits or is deemed to submit a Waiver in the immediately preceding Round in which case the number of EPs attributed to the Bidder shall be determined in accordance with paragraph D.6.44 below. The Activity Level of a Bidder in a Round is the aggregate number of EPs attributed to the Frequency Bands in which the Bidder:
- (a) submits a Valid Bid; and
 - (b) holds a Standing Highest Bid at the end of the immediately preceding Round (except where the Bidder submits a Valid Bid for that Frequency Band in which case EPs are to be attributed under subparagraph (a) above or where the Bidder submits a Withdrawal for that Frequency Band in which case the EPs are to be disregarded).

The implication is that a Bidder who reduces its Activity Level in a Round will have fewer EPs in the immediately following Round and where the number of EPs attributed to a Bidder is reduced to zero, that Bidder will not be eligible to participate further in the Bidding Stage.

- D.6.33 For example, Bidder A submits a deposit of HK\$1,520 million and is attributed 4 EPs initially. Bidder A submits Valid Bids for Frequency Bands A1, B1 and B2 in Round 1. The Activity Level of Bidder A in Round 1 is 4 EPs (4 EPs for Frequency Bands A1, B1 and B2) and it will be attributed 4 EPs for Round 2. Suppose at the end of Round 1 Bidder A holds a Standing Highest Bid for Frequency Band A1, and in Round 2 Bidder A only submits Valid Bids for Frequency Bands B1 and B2 for which it is not the Standing Highest Bidder, then the Activity Level of Bidder A in Round 2 is still 4 EPs (2 EP for its Standing Highest Bid on Frequency Band A1 plus 2 EPs for its Valid Bids on Frequency Bands B1 and B2) and its EPs for Round 3 will be maintained at 4. Assuming that Bidder A continues to hold a Standing Highest Bid on Frequency Band A1 only at the end of Round 2 but it submits a Withdrawal on Frequency Band A1 without submitting any Valid Bids on other Frequency Bands in Round 3, the Activity Level of Bidder A in Round 3 is 0 EP (0 EP for its Standing Highest Bid on Frequency Band A1 due to Withdrawal plus 0 EP for no Valid Bid). Bidder A's EPs will be reduced to 0 for Round 4 and it is not entitled to submit any Valid Bid in Round 4 and for all subsequent Rounds. Please refer to Annex D for more worked examples.

Withdrawal of Standing Highest Bids

- D.6.34 A Standing Highest Bidder may withdraw its Standing Highest Bids. The Standing Highest Bids that are withdrawn will not count towards the Bidder's Activity Level in the Round in which the Withdrawal is made.
- D.6.35 There is no limit on the number of Standing Highest Bids that a Bidder may withdraw in a Round, but a Bidder must not submit a Withdrawal in more than 3 Rounds.
- D.6.36 Where a Bidder makes a Withdrawal for a Frequency Band in a Round and there is no subsequent Valid Bid for the Frequency Band equal to or higher than the withdrawn Standing Highest Bid, the Bidder will be liable to pay the Government the difference between the withdrawn Standing Highest Bid and

THE AUCTION

the amount of the next subsequent highest Valid Bid for the Frequency Band (irrespective of whether that next subsequent highest Valid Bid is withdrawn or whether it is determined as the Spectrum Utilization Fee). The maximum liability is 30% of the withdrawn Standing Highest Bid.

- D.6.37 If a Bidder makes a Withdrawal for a Frequency Band in a Round and the Bidding Stage ends without any other Bidders submitting a Valid Bid for that Frequency Band, the Bidder will be liable to pay the Government 30% of the withdrawn Standing Highest Bid although it will not be entitled to be assigned that Frequency Band.
- D.6.38 The Authority may deduct an amount from the Deposit of the Bidder or make a claim under the Letter of Credit submitted by the Bidder for payment of the liabilities for Withdrawals. Any outstanding amount of the liabilities after the deduction or the claim may also be recoverable as a civil debt due and payable to the Government.

Waiver

- D.6.39 A Waiver allows a Bidder to maintain its EPs even though it does not wish to take any action or fails to take any action in a Round.
- D.6.40 In the first Round, each Bidder is obliged to submit a Valid Bid for at least one Frequency Band. The Authority shall disqualify a Bidder and forfeit an amount up to the full amount of its Deposit if that Bidder is qualified but fails to submit to the Authority a bid Valid Bid for at least one Frequency Band in the first Round. Submission of a Waiver is not allowed in the first Round.
- D.6.41 In any subsequent Round, a Bidder may actively submit a Waiver or may be deemed to submit a Waiver if it fails to take any action in a Round.
- D.6.42 Where the number of EPs attributed to all Standing Highest Bids of the Bidder at the end of the immediately preceding Round is equal to the number of EPs attributed to the Bidder in the current Round, the Activity Level of the Bidder will be equal to the number of EPs attributed to it even if it submits no further Valid Bids. Waiver will not be applicable.
- D.6.43 Each Bidder may submit or be deemed to submit a Waiver in a maximum of

two Rounds. The Authority may at its sole discretion grant additional Waivers to all Bidders in exceptional circumstances.

- D.6.44 Where a Waiver is submitted or deemed to have been submitted, the number of EPs attributed to the Bidder for the immediately following Round shall be equal to the Activity Level of the Bidder in the most immediately preceding Round in which the Bidder did not submit or was not deemed to have submitted a Waiver.
- D.6.45 Waivers may be used in case an individual Bidder need time to consider its bidding strategies or to resolve problems specific to it.

Conclusion of Bidding Stage

- D.6.46 The Bidding Stage will end where there is a Round in which no Valid Bid, Withdrawal or Waiver is submitted by any Bidder.
- D.6.47 The Bidder who is the Standing Highest Bidder for a Frequency Band at the end of the Bidding Stage will be the Provisional Successful Bidder for that Frequency Band and the Spectrum Utilization Fee payable for that Frequency Band shall be the amount of that Standing Highest Bid.
- D.6.48 In case the Bidding Stage continues for a protracted period of time, the Authority may, at its sole discretion, specify a Round to be the final Round by giving an advance notice period of six Rounds (if practicable). In such specified final Round, Bidders may submit a Valid Bid for a Frequency Band at any amount at or above the Round Price. In respect of each Frequency Band, the Bidder who submits the highest Valid Bid shall be the Provisional Successful Bidder.
- D.6.49 Where there is more than one Bidder having submitted the same highest Valid Bid in respect of a Frequency Band in the specified final Round, the Authority shall determine at random which of such Bidders shall be the Provisional Successful Bidder in respect of the Frequency Band. In case no Valid Bid is received in respect of a Frequency Band in the specified final Round, the Standing Highest Bidder at the end of the immediately preceding Round (if any) shall be the Provisional Successful Bidder of the Frequency Band.

Observer

D.6.50 The Authority, as the auctioneer, will conduct the Auction fairly and impartially. The Authority may, at its sole discretion, invite an independent third party to be an observer of the Bidding Stage.

D.7 Procedures after Bidding Stage

Announcement of the Bidding Stage result

D.7.1 Within two Business Days after the end of the Bidding Stage, the Authority will publish a Provisional Successful Bidder Notice to announce to the public the identity of the Provisional Successful Bidder for each Frequency Band and the Spectrum Utilization Fee payable for each Frequency Band.

Notification of Approval

D.7.2 In case a Bidder is subject to an Approval, a shareholder approval required by law or any regulatory authority before a Licence is granted to it, but the Bidder has not been capable of obtaining such Approval before the Application Dates, each Provisional Successful Bidder is required to notify the Authority whether it is subject to such Approval within two Business Days after the publication of the Provisional Successful Bidder Notice. If a Provisional Successful Bidder is subject to an Approval, it must obtain such Approval within ten Business Days after the publication of the Provisional Successful Bidder Notice. The Authority may disqualify the Provisional Successful Bidder and forfeit an amount by way of Penalty from its Deposit, if it fails to obtain the Approval by the deadline. The Authority may extend the deadline only in exceptional circumstances. A Provisional Successful Bidder will not be assigned any Frequency Band or granted a Licence unless it is not subject to an Approval or the Approval notified by it has been obtained.

Notification of Connection of Provisional Successful Bidders

D.7.3 Within two Business Days after the publication of the Provisional Successful Bidder Notice, each Provisional Successful Bidder is required to notify the Authority whether it is a Connected Bidder in relation to another Provisional Successful Bidder by submitting a Connected Bidder Statutory Declaration to

the Authority. A Provisional Successful Bidder who fails to submit a Connected Bidder Statutory Declaration to the Authority by the deadline shall be disqualified and the Authority may at its discretion forfeit an amount (up to the full amount of that Bidder's Deposit) by way of Penalty from that Provisional Successful Bidder's Deposit.

Dealing with Connected Provisional Successful Bidders

- D.7.4 If the Authority determines that two or more Provisional Successful Bidders are Connected Bidders ("Connected Provisional Successful Bidders") and the total amount of spectrum for which they are Provisional Successful Bidders exceeds the Spectrum Cap, the Authority will issue a notice announcing the identities of the Connected Provisional Successful Bidders and notify the respective Connected Provisional Successful Bidders of that fact. Within five Business Days after publication of the Connected Provisional Successful Bidder Notice, the Connected Provisional Successful Bidders must (a) make all necessary arrangements so as to satisfy the Authority that they cease to be Connected Provisional Successful Bidders in relation to each other, and (b) jointly submit to the Authority a notification with documentary proof of the arrangements that they have made. The notification should be duly signed by two Authorised Representatives of each of the Connected Provisional Successful Bidders. Any Provisional Successful Bidder failing to satisfy the Authority that it is not a Connected Provisional Successful Bidder in relation to another Provisional Successful Bidder or does not take part in the Sub-Auction as required by the Authority under the rules of the Auction as set out in the Notice shall be disqualified and up to the full amount of its Deposit will be forfeited.
- D.7.5 The arrangements that may be made by the Connected Provisional Successful Bidders under paragraph D.7.4 above may include one of the following:
- (a) reorganise themselves so that they cease to be Connected Bidders;
 - (b) agree among themselves as to which of their Standing Highest Bids will be withdrawn so that the total amount of spectrum assigned to them will not exceed the Spectrum Cap.
- D.7.6 If the Connected Provisional Successful Bidders fail to make any arrangement and submit a joint notification as required, the Authority will conduct a Sub-

THE AUCTION

Auction among that group of Connected Provisional Successful Bidders.

- D.7.7 The Sub-Auction will start and finish on the date and at the time notified by the Authority to the relevant Connected Provisional Successful Bidders. In the Sub-Auction, each Connected Provisional Successful Bidder may offer one and only one Bid of any amount, expressed in Hong Kong Dollars and cents, at or above the minimum fee of HK\$0 that it is willing to pay in addition to its Standing Highest Bid at the end of the Bidding Stage.
- D.7.8 The Connected Provisional Successful Bidder, whose Bid offered in the Sub-Auction plus the Standing Highest Bid offered at the end of the Bidding Stage produce the highest aggregate amount, will remain as a Provisional Successful Bidder in respect of the Frequency Band for which it is the Provisional Successful Bidder and that highest aggregate amount will be the Spectrum Utilization Fee payable by the Provisional Successful Bidder. In such case, all other Connected Provisional Successful Bidder(s) will cease to be Provisional Successful Bidder(s).
- D.7.9 In case of a tie, the Authority will determine at random which of the Connected Provisional Successful Bidders will remain as a Provisional Successful Bidder and the other Connected Provisional Successful Bidder(s) will cease to be Provisional Successful Bidder(s).
- D.7.10 Bidders should note that, under the Sub-Auction, only one of the Connected Provisional Successful Bidders will remain as a Provisional Successful Bidder and only the Frequency Band in respect of which it has been determined as the Provisional Successful Bidder in the Bidding Stage will be assigned. All other Connected Provisional Successful Bidders will not be assigned with any Frequency Band. They may also be subject to a Penalty described in paragraph D.7.12 below.
- D.7.11 After the resolution of Connected Provisional Successful Bidders under an arrangement described in paragraph D.7.5 above or the end of the Sub-Auction, the Authority will publish a Revised Provisional Successful Bidder Notice to announce to the public the following:
- (a) the arrangement made by the relevant Connected Provisional Successful Bidders, or the result of the Sub-Auction; and

THE AUCTION

- (b) the identities of all the Provisional Successful Bidders after the arrangement or the Sub-Auction.

D.7.12 If a Connected Provisional Successful Bidder withdraws its Standing Highest Bid or ceases to be a Provisional Successful Bidder as a result of the Sub-Auction, the Authority may forfeit an amount up to the full amount of its Deposit unless the Authority is satisfied that the Connection which occurs after the Qualification Stage is beyond the control of the Provisional Successful Bidder and that it did not have any purpose of circumventing the terms and conditions of the Auction.

D.7.13 If a Provisional Successful Bidder fails to satisfy the Authority that it is not a Connected Bidder in relation to another Provisional Successful Bidder or does not take part in the Sub-Auction as required by the Authority under the rules of the Auction, as set out in the Notice, the Authority shall disqualify it and forfeit an amount up to the full amount of its Deposit.

D.8 Grant Stage

Payment of Spectrum Utilization Fees

D.8.1 Within 60 Business Days after publication of the Provisional Successful Bidder Notice or the Revised Provisional Successful Bidder Notice (as the case may be), each Provisional Successful Bidder must provide to the Authority:

- (a) where applicable, a Letter of Credit in full amount of the Spectrum Utilization Fees payable by it from a Qualifying Bank to guarantee payment of the Spectrum Utilization Fees on or before 12 November 2020 for Frequency Bands B1, B2, B3, B4, and/or B5; and
- (b) where applicable, a Letter of Credit in full amount of the Spectrum Utilization Fees payable by it from a Qualifying Bank to guarantee payment of the Spectrum Utilization Fees on or before 30 July 2021 for Frequency Bands A1, A2, A3, and/or A4.

If a Provisional Successful Bidder fails to submit the Letter(s) of Credit for guaranteeing payment of Spectrum Utilization Fees, the Authority shall

disqualify it and forfeit an amount up to the full amount of its Deposit.

Grant of Licence

- D.8.2 After a Provisional Successful Bidder has satisfied the Authority that it is not a Connected Bidder in relation to another Provisional Successful Bidder, confirmed that it is not subject to an Approval or an Approval has been obtained, and provided Letter(s) of Credit to guarantee payment of the Spectrum Utilization Fees, the Authority will publish a Successful Bidder Notice to announce that the Provisional Successful Bidder has become a Successful Bidder.
- D.8.3 A Successful Bidder may choose to pay the Spectrum Utilization Fees in full as a lump sum payment upfront; or annually in 15 instalments with the first instalment⁶⁹ equivalent to the lump sum amount divided by 15 and for each subsequent instalment an amount equal to the Spectrum Utilization Fee payable in the immediately preceding instalment increased by 2.5%.
- D.8.4 If a Successful Bidder chooses to pay the Spectrum Utilization Fees by annual instalments, it is required to maintain at all times throughout the whole new assignment period a rolling performance bond to guarantee payment of Spectrum Utilization Fees payable in the ensuing five years, or the Spectrum Utilization Fees payable for the remaining duration of the new assignment term if it is less than five years, in the form of Schedule B attached to the Licence.
- D.8.5 After a Successful Bidder has paid the Spectrum Utilization Fees in accordance with D.8.3 and D.8.4, and where applicable, provided a Performance Bond for network and service rollout requirement in accordance with C.7.1 and C.7.2, the Authority will grant a Licence to the Successful Bidder on or before 12 January 2021 for Frequency Bands in 900 MHz band and 30 September 2021 for Frequency Bands in 1800 MHz band.

⁶⁹ For the avoidance of doubt, the first instalment of the Spectrum Utilization Fees for (a) Frequency Bands B1, B2, B3, B4 and B5 is payable on or before 12 November 2020; and (b) Frequency Bands A1, A2, A3 and A4 is payable on or before 30 July 2021.

Unassigned spectrum

D.8.6 All Frequency Bands which are not assigned in the Auction (whether unsold or not assigned to a Provisional Successful Bidder or a Successful Bidder who was subsequently disqualified by the Authority) shall remain vested in the Authority.

 - (b) subject to paragraphs 4.8 and 4.10, submit a Waiver.
- 4.5.3 For the avoidance of doubt, where a Bidder is a Standing Highest Bidder in respect of a Frequency Band in a Round, it may elect to submit or not to submit a Valid Bid for that Frequency Band in the immediately following Round.

4.6 Valid Bid

- 4.6.1 A Valid Bid, in relation to each Round, is a Bid:
- (a) subject to paragraph 4.12.1(b), equal to the Round Price specified by the Authority prior to the Round;
 - (b) submitted in accordance with the requirements given in paragraph 4.11.1; and
 - (c) that complies with the requirements given in paragraph 4.8.2.

4.7 Determination of Standing Highest Bid for each Round

- 4.7.1 At the end of each Round, the Authority shall determine the Standing Highest Bid among the Valid Bids for each Frequency Band as follows:
- (a) if no Valid Bid is received in a Round in respect of a Frequency Band,
 - (i) where there was a Standing Highest Bid in respect of that Frequency Band at the end of the immediately preceding Round, that Standing Highest Bid shall remain as the Standing Highest Bid in respect of that Frequency Band (unless that Standing Highest Bid has been subject to a Withdrawal);
 - (ii) where there was no Standing Highest Bid in respect of that Frequency Band at the end of the immediately preceding

Round, there shall be no Standing Highest Bid in respect of that Frequency Band;

- (iii) where the Standing Highest Bid in respect of that Frequency Band at the end of the immediately preceding Round has been subject to a Withdrawal, there shall be no Standing Highest Bid in respect of that Frequency Band;
- (b) if only one Valid Bid is received in a Round in respect of a Frequency Band, that Valid Bid shall be the Standing Highest Bid for that Frequency Band;
- (c) if two or more Valid Bids are received in a Round in respect of a Frequency Band, the Authority shall determine at random which of them shall be the Standing Highest Bid for that Frequency Band.

4.8 Eligibility Points and Activity Level

4.8.1 One or two Eligibility Points shall be attributed to each Frequency Band in accordance with Appendix 2 of this Notice.

4.8.2 The Activity Level of a Bidder in a Round shall not exceed the number of Eligibility Points attributed to that Bidder for that Round.

4.8.3 For the first Round, the number of Eligibility Points attributed to each Bidder shall be determined in accordance with Appendix 3 of this Notice. Notwithstanding the Deposit provided by the Bidder, the maximum number of Eligibility Points to be attributed to the Bidder is subject to the Spectrum Cap.

4.8.4 For each Round other than the first Round, the number of Eligibility Points attributed to a Bidder shall be equal to the Activity Level of the Bidder in the immediately preceding Round as determined in accordance with paragraph 4.8.5, unless the Bidder submits or is deemed to have submitted a Waiver in the immediately preceding Round in which case the number of Eligibility Points attributed to the Bidder shall be equal to the Activity Level of the Bidder in the most immediately preceding Round in which the Bidder did not submit or was not deemed to have submitted a Waiver.

4.8.5 The Activity Level of a Bidder in a Round shall be the aggregate of the number of Eligibility Points attributed to the Frequency Bands in respect of which the Bidder:

- (a) submits a Valid Bid in that Round; and
- (b) was the Standing Highest Bidder at the end of the immediately preceding Round (except where the Bidder submits a Valid Bid for that Frequency Band in which case the Eligibility Point(s) is attributed under paragraph 4.8.5 (a) or where the Bidder submits a Withdrawal for that Frequency Band in that Round in which case the Eligibility Point(s) is disregarded in accordance with paragraph 4.9.3).

4.9 Withdrawal

4.9.1 In any Round after the first Round, a Bidder may submit a withdrawal in respect of a Frequency Band (“Withdrawal”) for which the Bidder holds the Standing Highest Bid at the end of the immediately preceding Round. A Withdrawal must be submitted in accordance with the requirements given in paragraph 4.11.1.

4.9.2 In case a Bidder makes a Withdrawal in respect of a Frequency Band in accordance with paragraph 4.9.1, then:

- (a) where one or more Bidders submit Valid Bids in a subsequent Round for that Frequency Band but all the subsequent Valid Bids are lower than that Standing Highest Bid (irrespective of whether the subsequent Valid Bids are also withdrawn), that Bidder is liable to pay the Government the difference between that Standing Highest Bid and the amount of the next subsequent highest Valid Bid (which is in any case lower than that Standing Highest Bid) (irrespective of whether that next subsequent highest Valid Bid is withdrawn or whether it is determined as the Spectrum Utilization Fee), subject to a maximum amount of 30% of that Standing Highest Bid;
- (b) where no other Bidder submits a Valid Bid in any subsequent Round for that Frequency Band, that Bidder is liable to pay the Government 30% of that Standing Highest Bid.

Without prejudice to any other rights or remedies of the Authority, the Authority may deduct from the Deposit of a Bidder or make a claim under the Letter of Credit submitted by a Bidder, the amount that Bidder is liable under this paragraph.

4.9.3 Where, in a Round, a Bidder makes a Withdrawal in respect of a Frequency Band in accordance with paragraph 4.9.1, the Standing Highest Bid which is the subject of the Withdrawal shall be disregarded for the purposes of determining the Bidder's Activity Level for that Round.

4.9.4 The number of Rounds in which each Bidder may make a Withdrawal or Withdrawals is limited to three.

4.10 Waiver

4.10.1 In any Round other than the first Round, a Bidder may submit a Waiver in lieu of taking any action under paragraph 4.5.2(a) provided that:

- (a) Waivers were submitted under this paragraph or were deemed to have been submitted by that Bidder in previous Rounds under paragraph 4.10.2 in less than two Rounds; and
- (b) the number of Eligibility Points attributed to all Standing Highest Bids of the Bidder at the end of the immediately preceding Round is less than the number of Eligibility Points attributed to the Bidder in the Round.

A Waiver must be submitted in accordance with the requirements given in paragraph 4.11.1.

4.10.2 In any Round other than the first Round, where a Bidder fails to take any action under paragraph 4.5.2(a) or submit a Waiver under paragraph 4.10.1, the Bidder is deemed to have submitted a Waiver provided that:

- (a) Waivers were submitted under paragraph 4.10.1 or were deemed to have been submitted by that Bidder in previous Rounds under this paragraph in less than two Rounds; and
- (b) the number of Eligibility Points attributed to all Standing Highest Bids of the Bidder at the end of the immediately preceding Round is less than the number of Eligibility Points attributed to the Bidder in the Round.

4.10.3 Where, in a Round, a Bidder submits a Waiver in accordance with paragraph 4.10.1 or is deemed to have submitted a Waiver in accordance with paragraph 4.10.2, the number of Eligibility Points attributed to that Bidder for the immediately following Round shall be the same as the Activity Level of the Bidder in the most immediately preceding Round in which the Bidder did not submit or was not deemed to have submitted a

Waiver.

- 4.10.4 At any time during the Bidding Stage, the Authority may, at its sole discretion, increase the number of Waivers that all Bidders may exercise.

4.11 Method for submitting Valid Bid, Withdrawal or Waiver

- 4.11.2 A Valid Bid, a Withdrawal or a Waiver, once submitted to the Authority, shall not be amended, substituted or withdrawn, other than in accordance with terms and conditions of this Notice.

4.12 Conclusion of Bidding Stage

4.12.1 The Bidding Stage shall end upon either:

 - (i) no Valid Bid is submitted for any Frequency Band,
 - (ii) no Withdrawal is submitted for any Frequency Band, and
 - (iii) no Waiver is submitted or is deemed to be submitted by any Bidder; or
- (b) the completion of a Round which the Authority has specified to be the final Round and has permitted the Bidders to submit Valid Bids for the Frequency Bands at any amount at or above the Round Prices;

whichever first occurs.

In case of paragraph 4.12.1(a), the Provisional Successful Bidder of a Frequency Band shall be the Bidder which has submitted the Standing Highest Bid in respect of that Frequency Band at the end of the Bidding Stage and the amount of the Spectrum Utilization Fee payable for that Frequency Band shall be the amount of that Standing Highest Bid.

In case of paragraph 4.12.1(b), the Provisional Successful Bidder of a Frequency Band shall, subject to paragraphs 4.12.2 and 4.12.3, be the Bidder which has submitted the highest Valid Bid in respect of that Frequency Band and the amount of the Spectrum Utilization Fee payable for that Frequency Band shall be the amount of that highest Valid Bid.

4.12.2 Where there is more than one Bidder having submitted the same highest Valid Bid in respect of a Frequency Band in the Round described in paragraph 4.12.1(b), the Authority shall determine at random which of such Bidders shall be the Provisional Successful Bidder in respect of that Frequency Band.

4.12.3 In case no Valid Bid is received in respect of a Frequency Band in the Round described in paragraph 4.12.1(b):

(a) where there was a Standing Highest Bid in respect of that Frequency Band at the end of the immediately preceding Round, that Standing Highest Bidder shall be the Provisional Successful Bidder in respect of that Frequency Band (unless that Standing Highest Bid has been subject to a Withdrawal);

(b) where there was no Standing Highest Bid in respect of that Frequency Band at the end of the immediately preceding Round, there shall be no Provisional Successful Bidder in respect of that Frequency Band;

(c) where the Standing Highest Bid in respect of that Frequency Band at the end of the immediately preceding Round has been subject to a Withdrawal, there shall be no Provisional Successful Bidder in respect of that Frequency Band.

4.13 Provisional Successful Bidder Notice

4.13.1 Within two Business Days after the end of the Bidding Stage, the

Authority shall publish a notice (“Provisional Successful Bidder Notice”) to announce:

4.13.2 Within two Business Days after publication of the Provisional Successful Bidder Notice, each Provisional Successful Bidder shall notify the Authority whether it is a Connected Bidder in relation to another Provisional Successful Bidder by completing and submitting the Connected Bidder Statutory Declaration. If a Provisional Successful Bidder fails to submit such notification to the Authority, it shall be disqualified and the Authority may at its discretion forfeit an amount (up to the full amount of that Bidder’s Deposit) by way of Penalty from that Bidder’s Deposit.

4.13.3 Within fourteen Business Days after publication of the Provisional Successful Bidder Notice, the Authority shall publish a notice (“Connected Provisional Successful Bidder Notice”) if it determines, either following a notification to it by a Provisional Successful Bidder under paragraph 4.13.2 or as a result of its review of any information available to it, that two or more Provisional Successful Bidders are Connected Bidders (“Connected Provisional Successful Bidders”) and the total amount of spectrum for which they are Provisional Successful Bidders exceeds the Spectrum Cap.

4.14 Dealing with Connected Bidders after Bidding Stage

4.14.1 Within five Business Days after publication of the Connected Provisional Successful Bidder Notice, the relevant Connected Provisional Successful Bidders shall make all arrangements as may be necessary, so as to satisfy the Authority that they cease to be Connected Provisional Successful Bidders in relation to each other, and shall jointly submit to the Authority a notification with documentary proof of the arrangements that have been made duly signed by two Authorised Representatives of each of the Connected Provisional Successful Bidders.

- 4.14.2 The arrangements that may be made by the Connected Provisional Successful Bidders pursuant to paragraph 4.14.1 may include one of the following:
- (a) reorganise themselves so that they cease to be Connected Bidders;
 - (b) reach an agreement as to which of their Standing Highest Bids shall be withdrawn so that the total amount of spectrum to be assigned to the Bidder which made the remaining Standing Highest Bid, as the case may be, does not exceed the Spectrum Cap.
- 4.14.3 If the Connected Provisional Successful Bidders fail to make any arrangement or submit a joint notification as required under paragraph 4.14.1, the Authority shall conduct an auction among such Connected Provisional Successful Bidders (“Sub-Auction”).
- 4.14.4 The date, the start time, the end time and the location of the Sub-Auction shall be notified by the Authority to the relevant Connected Provisional Successful Bidders.
- 4.14.5 In the Sub-Auction, each of the relevant Connected Provisional Successful Bidders may offer one and only one Bid which shall consist of any cash amount expressed in Hong Kong Dollars and cents at or above the minimum fee of HK\$0 that it is willing to pay in addition to its Standing Highest Bid at the end of the Bidding Stage.
- 4.14.6 Subject to paragraph 4.14.7, the Connected Provisional Successful Bidder, which Bid offered in the Sub-Auction and Standing Highest Bid offered at the end of the Bidding Stage produce the highest aggregate amount, shall remain as a Provisional Successful Bidder in respect of the Frequency Band for which it is the Provisional Successful Bidder at the end of the Bidding Stage whilst other Connected Provisional Successful Bidders shall cease to be Provisional Successful Bidders.
- 4.14.7 Where two or more Connected Provisional Successful Bidders offer the same highest aggregate amount referred to in paragraph 4.14.6, the Authority shall determine at random which of them shall remain as a Provisional Successful Bidder. In such case, other Connected Provisional Successful Bidders shall cease to be Provisional Successful Bidders.

- 4.14.8 After receipt of a notification submitted by the Connected Provisional Successful Bidders under paragraph 4.14.1 or the Sub-Auction conducted in accordance with paragraphs 4.14.3 to 4.14.7, as the case may be, the Authority shall publish a notice (“Revised Provisional Successful Bidder Notice”) to announce:
- (a) the arrangement made by the relevant Connected Provisional Successful Bidders, or the result of the Sub-Auction conducted among the relevant Connected Provisional Successful Bidders; and
 - (b) the identities of all Provisional Successful Bidders after the arrangement or the Sub-Auction, as the case may be.
- 4.14.9 If a Connected Provisional Successful Bidder withdraws its Standing Highest Bid in accordance with paragraph 4.14.2(b) or ceases to be a Provisional Successful Bidder as a result of the Sub-Auction conducted in accordance with paragraphs 4.14.3 to 4.14.7, the Authority may at its discretion forfeit an amount (up to the full amount of that Bidder’s Deposit) by way of Penalty from that Bidder’s Deposit unless that Connected Provisional Successful Bidder is able to demonstrate to the satisfaction of the Authority that it has become a Connected Bidder in relation to another Provisional Successful Bidder as a result of a change in circumstances which is beyond its control and that it did not have any purpose of circumventing the terms and conditions of this Notice.
- 4.14.10 If a Provisional Successful Bidder fails to satisfy the Authority that it is not a Connected Bidder in relation to another Provisional Successful Bidder or does not take part in the Sub-Auction conducted in accordance with paragraphs 4.14.3 to 4.14.7, as the case may be, the Authority shall disqualify that Provisional Successful Bidder from the Auction and forfeit an amount (up to the full amount of that Bidder’s Deposit) by way of Penalty from that Bidder’s Deposit where the Deposit is in cash or make a claim under the Letter of Credit to the extent of the relevant amount where the Deposit is a Letter of Credit.

4.15 Return of Deposits to the Losing Bidders

- 4.15.1 After publication of the Provisional Successful Bidder Notice or the Revised Provisional Successful Bidder Notice, as the case may be, the Authority shall return to a Bidder which is not a Provisional Successful Bidder or ceases to be a Provisional Successful Bidder (“Losing Bidder”)

that Losing Bidder's Deposit provided:

- (a) that there is no outstanding investigation being carried out by the Authority against that Losing Bidder in respect of any suspected contravention of the terms and conditions of this Notice; and
- (b) that, if any amounts have been forfeited or deducted by the Authority in accordance with the terms and conditions of this Notice with respect to that Losing Bidder,
 - (i) where the Deposit is in cash, the Deposit shall be returned less the aggregate amount of the Penalties and the amount deducted by the Authority under paragraph 4.9.2; and
 - (ii) where the Deposit is a Letter of Credit, the Authority shall make a claim under the Letter of Credit to the extent of the aggregate amount of the Penalties and the amount the Losing Bidder is liable under paragraph 4.9.2.

4.15.2 Notwithstanding the return to a Losing Bidder of its Deposit in accordance with paragraph 4.15.1, that Losing Bidder shall continue to comply with those terms and conditions of this Notice as are specified by the Authority. If the Authority does not specify any terms and conditions in accordance with this paragraph, that Losing Bidder shall be required to comply with all the terms and conditions of this Notice as appropriate, including all the undertakings given in the Bidder Compliance Certificate submitted by that Bidder.

17.2 Where the circumstances referred to in General Condition 17.1 are such that there is an outage or interruption in the service affecting a significant number of the licensee's customers for a period of more than 7 days, the licensee shall provide the Authority with a full report in writing detailing the reasons for the breach and indicating when, or if, it will be able to continue to provide the service.

17.3 If the Authority is, after considering a report provided under General Condition 17.2, of the reasonable belief that the licensee would be able to provide the service within a reasonable period of time despite the circumstances outlined in that report, the Authority may direct that the licensee recommence the service within such reasonable period as the Authority may in writing direct. The licensee shall comply with such direction.

18. PUBLICATION OF LICENCE

18.1 The licensee, or the Authority, may at their discretion make the terms and conditions of this licence, including any specific conditions, publicly available in any manner they think fit.

SPECIAL CONDITIONS

1. COMPLIANCE WITH CODES OF PRACTICE

1.1. The licensee shall comply with such guidelines or codes of practices which may be issued by the Authority as in its opinion are suitable for the purpose of providing practical guidance on any particular aspect of any conditions of this licence.

1.2 Without limiting or affecting in any way the licensee's obligations under any other Condition, the licensee shall comply with any code of practice or guideline which may be issued by the Authority from time to time for the purpose of providing practical guidance to the licensee in respect of:

- (a) the provision of satisfactory service;

- (c) the protection and promotion of the interests of consumers of telecommunications goods and services; and
- (d) calling line identification and other calling line identification related services.

1.3 Before issuing any code of practice or guideline referred to in Special Condition 1.2, the Authority shall carry out such consultation as is reasonable in all the circumstances of the case.

1.4 Without limiting the generality of Special Condition 1.2(d), the code of practice or guideline issued under that Special Condition may require the licensee to validate the calling line identification against the authenticated customer in order to prevent fraud and spam.

2. PURCHASE OF ASSETS

2.1 If a licensee is (1) in a dominant position (within the meaning defined Annex B
Appendix 1 Licence

in section 2 of the Ordinance) in the relevant telecommunications market; or (2) subject to a universal service obligation specified under the Ordinance, the Government may elect to take over the licensee's undertaking and purchase all or part of its assets if any of the following circumstances occur –

- (i) this licence expires;
- (ii) this licence is revoked;
- (iii) the licensee goes into liquidation; or
- (iv) the licensee ceases to carry on business,

provided that if the Government elects to do so, it shall give notice in writing not later than 90 days in advance of the expiry of this licence, or immediately upon revocation of this licence or within a reasonable time of the happening of the events at Special Condition 2.1(iii) or 2.1(iv).

2.2 The selling price shall be agreed between the Government and the licensee on the basis of the fair market value of those assets at the time of acquisition determined on the basis that this licence remains in force and that the network is continuing to be used for the provision of the service. If no agreement can be reached between the Government and the licensee, the matter shall be settled by arbitration in accordance with the provisions of the Arbitration Ordinance (Cap. 609).

2.3 For the purpose of Special Condition 2.1,

- (1) where the licensee is in a dominant position in the relevant telecommunications market, the undertaking and assets of the licensee shall be the relevant undertaking and assets of the licensee in relation to its dominant position in that relevant telecommunications market; and
- (2) where the licensee is subject to a universal service obligation, the undertaking and assets of the licensee shall be the relevant undertaking and assets of the licensee in relation to its operation that is subject to the universal service obligation.

3. REQUIREMENTS FOR INTERCONNECTION

- 3.1 The licensee shall interconnect its service and network with the services and networks of other unified carriers, mobile carriers or fixed carriers licensed under the Ordinance and, where directed by the Authority, interconnect its service and network with telecommunications networks and services of a type mentioned in section 36A(3D) of the Ordinance. The licensee shall interconnect its service and network with the services and networks of other interconnecting parties under this Special Condition to ensure any-to-any connectivity, i.e. any customer in any one network can have access to any other customer in any interconnecting network and, where directed by the Authority, to any service offered in any interconnecting network.
- 3.2 The licensee shall use all reasonable endeavours to ensure that interconnection is effected promptly, efficiently and on terms, conditions and at charges which are based on the licensee's reasonable relevant costs attributable to interconnection.
- 3.3 The licensee shall provide facilities and services reasonably necessary for the prompt and efficient interconnection of the service and the network with the telecommunications networks or services of the other entities referred to in Special Condition 3.1. Such facilities and services include –
- (a) carriage services for the delivery of codes, messages or signals or other communication across and between the interconnected networks;
 - (b) those necessary to establish, operate and maintain points of interconnection between the licensee's network and the networks of the other entities, including, without limitation, the provision of sufficient transmission capacity to connect between the licensee's network and networks of the other entities;
 - (c) billing information reasonably required to enable the other

entities to bill their customers;

- (d) facilities specified by the Authority pursuant to section 36AA of the Ordinance; and
- (e) ancillary facilities and services required to support the above types of interconnection facilities and services.

4. NUMBERING PLAN AND NUMBER PORTABILITY

- 4.1 The licensee shall comply with the numbering plan made or approved by the Authority and any directions given by the Authority in respect of the numbering plan.
- 4.2 The licensee shall at the request of the Authority or otherwise consult the Authority about the arrangements for the allocation and reallocation of numbers and codes within the numbering plan.
- 4.3 Where requested by the Authority, the licensee shall prepare and furnish to the Authority proposals for developing, adding to or replacing the numbering plan relating to the service.
- 4.4 The licensee shall, in such manner as the Authority may direct, facilitate the portability of numbers assigned to any customer of any unified carrier licensee, fixed carrier licensee, mobile carrier licensee, services-based operator, mobile virtual network operator or any other licensee, as the case may be, so that any number so assigned may be used by that customer should it cease to be a customer of any such entity and become a customer of any other unified carrier licensee, fixed carrier licensee, mobile carrier licensee, services-based operator, mobile virtual network operator or any other licensee, as the case may be.
- 4.5 Directions by the Authority under Special Condition 4.4 include reasonable directions concerning,
 - (a) compliance with Special Condition 4.4 by the licensee at the

licensee's own expenses, or by equitably sharing all relevant costs associated with providing portability of numbers as between the licensee, any other unified carrier licensee, fixed carrier licensee, mobile carrier licensee, services-based operator, mobile virtual network operator or any other licensee, as the case may be; and

- (b) facilitation of portability of numbers through such technical arrangement (including but not restricted to a centralized database) as may be specified by the Authority, in co-operation with other parties sharing or maintaining the technical arrangement at such costs as may be directed under Special Condition 4.5(a).

4.6 For the purposes of this Special Condition, "portability of numbers" means the function of the network and the service which enables a customer of the service of a unified carrier licensee, fixed carrier licensee, mobile carrier licensee, services-based operator or mobile virtual network operator to become a customer of another unified carrier licensee, fixed carrier licensee, mobile carrier licensee, services-based operator or mobile virtual network operator or any other licensee, as the case may be, without changing the number assigned to that customer.

4.7 Notwithstanding the generality of the foregoing, the licensee, where and as directed by the Authority, shall provide Administration Database Hosting Service to other licensees to facilitate the portability of numbers as required under their respective licences. The licensee may impose a reasonable charge to fairly compensate it for providing the Administration Database Hosting Service. The licensee shall endeavour to agree with the other licensee on what amounts to fair compensation for provision of the Administration Database Hosting Service.

4.8 Where the licensee is unable to agree with another licensee pursuant to Special Condition 4.7 on what amounts to fair compensation for the provision of, or the reasonable mode of supply of, the Administration Database Hosting Service, the matter at issue may be referred by either licensee to the Authority for determination. The licensee shall pay to the Authority, as it may reasonably require having regard to the

number of parties to the determination, any costs or expenses incurred by the Authority in respect of such a determination or determination process including without limitation staff costs and expenses and the financing of liabilities paid out of the Office of the Communications Authority Trading Fund.

4.9 For the purposes of Special Conditions 4.7 and 4.8,

“administration database” means an off-line database that performs the backup and auditing function for all ported-out and ported-in numbers of unified carrier licensee, fixed carrier licensee, mobile carrier licensee, services-based operator, mobile virtual network operator or any other licensee, as the case may be, to facilitate the portability of numbers. The database is required to keep the current and historical records of all relevant ported-out and ported-in numbers; and

“Administration Database Hosting Service” means a service offered by the licensee which makes available its administration database for access by another licensee, so that the latter will be able to fulfil the licence obligation under its own licence to facilitate the portability of numbers without the need of setting up its own administration database.

5. ACCOUNTING PRACTICES

5.1 Where directed by the Authority in writing, the licensee shall implement such accounting practices as specified by the Authority. Such accounting practices are to be consistent with generally accepted accounting practices, where applicable, and may include (but are not limited to) accounting practices which allow for the identification of the costs and charges for different services or types or kinds of services.

6. REQUIREMENT TO FURNISH INFORMATION TO THE AUTHORITY

6.1 The licensee shall furnish to the Authority, in such manner and at such

times as the Authority may request in writing, such information relating to the business run by the licensee under this licence, including financial, technical, and statistical information, accounts and other records, as the Authority may reasonably require in order to perform its functions under the Ordinance and this licence. Information referred to in this condition includes but is not limited to such information as is listed in Schedule 4.

- 6.2 Subject to Special Condition 6.3 the Authority may use and disclose information to such persons as the Authority thinks fit.
- 6.3 Where the Authority proposes to disclose information obtained and the Authority considers that the disclosure would result in the release of information concerning the business or commercial or financial affairs of a licensee which disclosure would or could reasonably be expected to adversely affect the licensee's lawful business or commercial or financial affairs, the Authority will give the licensee a reasonable opportunity to make representations on the proposed disclosure before the Authority makes a final decision whether to disclose the information.

7. TARIFFS

- 7.1 The licensee shall publish and charge no more than the tariffs for the service operated under this licence. The tariffs shall include the terms, as defined under section 7F(2) of the Ordinance, for the provision of the service.
- 7.2 Publication of a tariff shall be effected by –
- (a) publication in the website of the licensee on or before the date on which the tariff becomes effective;
 - (b) the Authority receiving a copy of the tariff on or before the date as specified by the Authority;
 - (c) placing a copy of the tariff in a publicly accessible part of the

principal place of business and other business premises of the licensee as specified by the Authority; and

- (d) supplying a copy of the relevant details to any person who may request it, at a charge no greater than is necessary to recover reasonable costs of making and supplying the copy.

7.3 The Authority may by direction in writing, for such period and on such conditions as the Authority may determine, direct that either one or any combination of Special Conditions 7.2(a), (b), (c), and (d), either completely or as to particular obligations imposed under them, shall not apply to the licensee.

8. NOTIFICATION OF DISCOUNTS

8.1 The licensee shall notify the Authority of any discount to its published tariffs offered for any of the services operated under this licence, other than those services listed in Schedule 6.

8.2 Notification of a discount shall be effected upon the Authority's receipt of a copy of the discount to a tariff, including such information prescribed in Schedule 5, at least one day before the discount becomes effective.

8.3 The Authority may publish any discount that the licensee notifies under Special Condition 8.1 after the discount becomes effective, if the Authority considers that it is in the public interest to do so.

8.4 For the purposes of this Special Condition, "discount" means the amount of any payment, credit, rebate, waiver, allowance, gift, or other benefit, directed to a customer, other than:

- (a) an amount in repayment of an amount overpaid to the licensee by that customer;
- (b) an amount in settlement of a disputed amount billed to that customer by the licensee;

- (c) an amount payable pursuant to a service level or service quality obligation of the licensee to the customer; or
- (d) the amount payable by a customer upon termination of service to that customer.

9. BILLING AND METERING ACCURACY

- 9.1 The licensee shall take all reasonable steps to ensure that any metering equipment and billing system used in connection with the service is accurate and reliable.
- 9.2 At the written request of the Authority or at regular intervals to be specified by the Authority, the licensee shall conduct tests on its metering equipment and billing system to assess its accuracy, reliability and conformity to the technical standards, if any, specified by the Authority. B. APPLICATION FORM INSTRUCTIONS

Instructions are set out below on the information required in the Application Form, and the form of its presentation. Unless otherwise stated, terms used in the Application Form and these instructions have the meaning given to them in the Notice.

B.1 The Bidder

B.1.1 Details of the Bidder

Please provide the registered name of the Bidder, its company number appearing on the Certificate of Incorporation issued by the Companies Registry of Hong Kong, registered office address (and principal place of business if different) and official fax and telephone numbers.

Separately, please provide certified true copies of the Certificate of Incorporation and the Business Registration Certificate of the Bidder.

B.1.2 Contact details of the Bidder

Please provide the address, telephone number and fax number within the Hong Kong Special Administrative Region at which the Bidder can be reached between 9:00 am and 6:00 pm Hong Kong time. This address will be considered as the Bidder's official address for written correspondence for matters relating to the Auction and will generally be used for non-time critical communication.

B.1.3 Principal contacts of the Bidder

Please provide the names, titles (e.g. executive director) and/or positions (e.g. Head of Telecom) and contact details (telephone number, mobile number, fax number and e-mail address) for three persons that the Authority may contact directly for urgent or time-critical communication. These contacts must be fully authorised under law and the Bidder's constitutional documents to represent the Bidder for all acts that may be related to the Auction and to the grant of a Licence. The contacts should be listed in the order in which the Bidder would prefer the Authority to contact them. Such persons should be aware that the Authority may contact them outside normal working hours.

B.1.4 Bank account (for reimbursement of Deposit provided in cash)

Where the Deposit is provided in cash, please provide the details of the Bidder's bank account into which the Deposit should be returned in accordance with the provisions of the Notice.

B.1.5 Directors and other key members of the management of the Bidder

Please provide the names, titles and/or positions of all the directors and any other key members of the management of the Bidder.

B.2 Bidder's Authorised Representatives

Please provide the name, employer, title and/or position (together with one business card), identity card number or passport number and specimen signature of each Authorised Representative who is authorised to provide confirmations, submit bids and act in any other way necessary on behalf of the Bidder during the Auction. The table in section A.2 of the Application Form will be used by the Authority to verify the signatures for matters relating to the Auction.

If any Authorised Representative is not an employee of the Bidder, please state clearly its relationship with the Bidder in the "employer" section.

If the Bidder wishes to substitute one or more of its Authorised Representatives, it shall give the Authority at least one Business Day prior written notification of the details of such change.

B.3 Insiders

Please provide the names, employer, title and/or position, and roles of all the Insiders to the Application and the Bidder's participation in the Auction. If any of the Insiders is not an employee of the Bidder, then the information provided must state clearly the relationship between this Insider and the Bidder. The description of the role must be sufficient for the Authority to determine what function that Insider has played or will play during the Auction.

B.4 Corporate and shareholding structures of the Bidder

Please provide, in the format described hereafter, the following information regarding the ownership structure of the Bidder:

- (a) Detailed information on corporate and shareholding structures of the Bidder including each person (which may be individual or body corporate; see the interpretation of "person" given in the Notice):
 - (i) which has a shareholding of more than 15% in the Bidder;
 - (ii) in which the Bidder has a shareholding of more than 15%; and
 - (iii) which shareholding of more than 15% is held by another person who also holds a shareholding of more than 15% in the Bidder.

Please also indicate which of the companies appeared in the corporate and shareholding structures are listed on a stock exchange ("Listed Companies"), the exchange on which they are listed, and the percentage of each class of their shares which form a public or free float. Please provide the latest annual reports and accounts of the Bidder and the Listed Companies.

- (b) Detailed information of all parties who have a material interest, as defined in the Notice, in the Bidder. Bidders should note that, a material interest in the form of an indirect interest (e.g. interest held through nominees or custodians) and a conditional entitlement (e.g. interest conditional on terms of a loan agreement) must be disclosed.

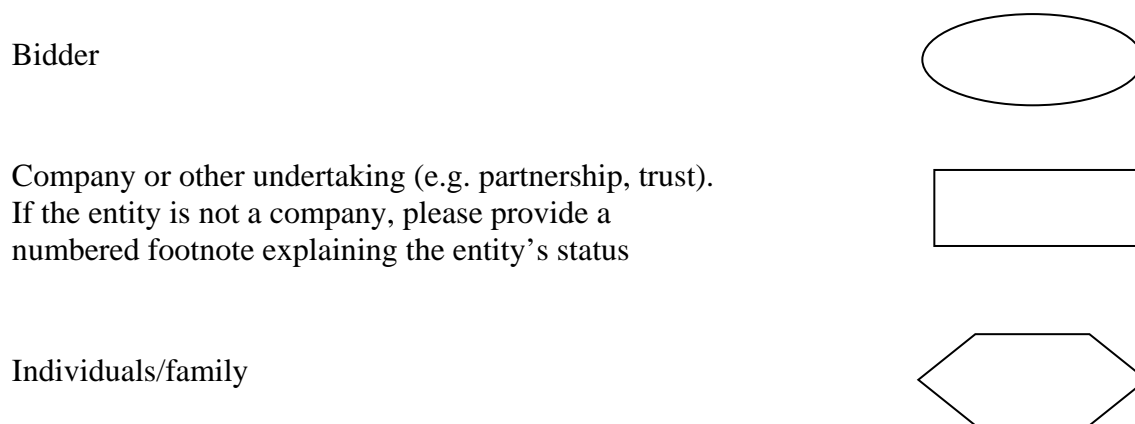

The information provided should state clearly the nature of the material interest (e.g. percentage shareholding, voting control, board representation, management agreement etc). If more than one factor apply, each of such factors should be clearly stated.

For the avoidance of doubt, the Bidder is required to provide information of each person (which may be individual or body corporate; see the interpretation of “person” given in the Notice) who holds a material interest in it. For this purpose, the Bidder may provide more than one diagram. (The Bidder is not required to provide information of any other interest (e.g. shareholding of less than 25%) which does not amount to a material interest as defined in the Notice.)

- (c) Please also indicate which of the parties provided pursuant to B.4 (a) and (b) above are Insiders to the Bidder.

The information provided pursuant to B.4 (a) and (b) above will be disclosed to other Bidders to assist each of the Bidders to assess whether it is a Connected Bidder in relation to another Bidder. In disclosing such information, the relevant parts of each Application Form will simply be copied to the other Bidders. If the Bidder wishes particular ownership information that is not in the public domain to be kept confidential, that Bidder should ask the Authority to treat such information as confidential and such information should be clearly identified to the Authority on the Application Form. That Bidder should also provide a separate abbreviated version that can be disclosed by the Authority to other Bidders. Any confidential information should be provided on separate sheets of paper so that it can be separated from the other information to be copied to other Bidders (if this is done, the Application Form must make the Bidder’s overall ownership structure clearly and easily comprehensible). Bidders should note that the request will only be accommodated if the Authority considers that the request is reasonable in the interests of that Bidder and not disclosing such information would not unfairly prejudice other Bidders or be detrimental to the Auction.

The information required in this section of the Application Form should be provided in diagrammatic form as follows. Each shape should contain the registered name of the relevant entity.

Company(ies) controlled by private individual or family
(see illustration below)

Where such entities are Insiders, the shape should be double-lined as follows:

Company or other entity which is an Insider

Individual/family that is an Insider

Company(ies) controlled by private individual
or family that is an Insider

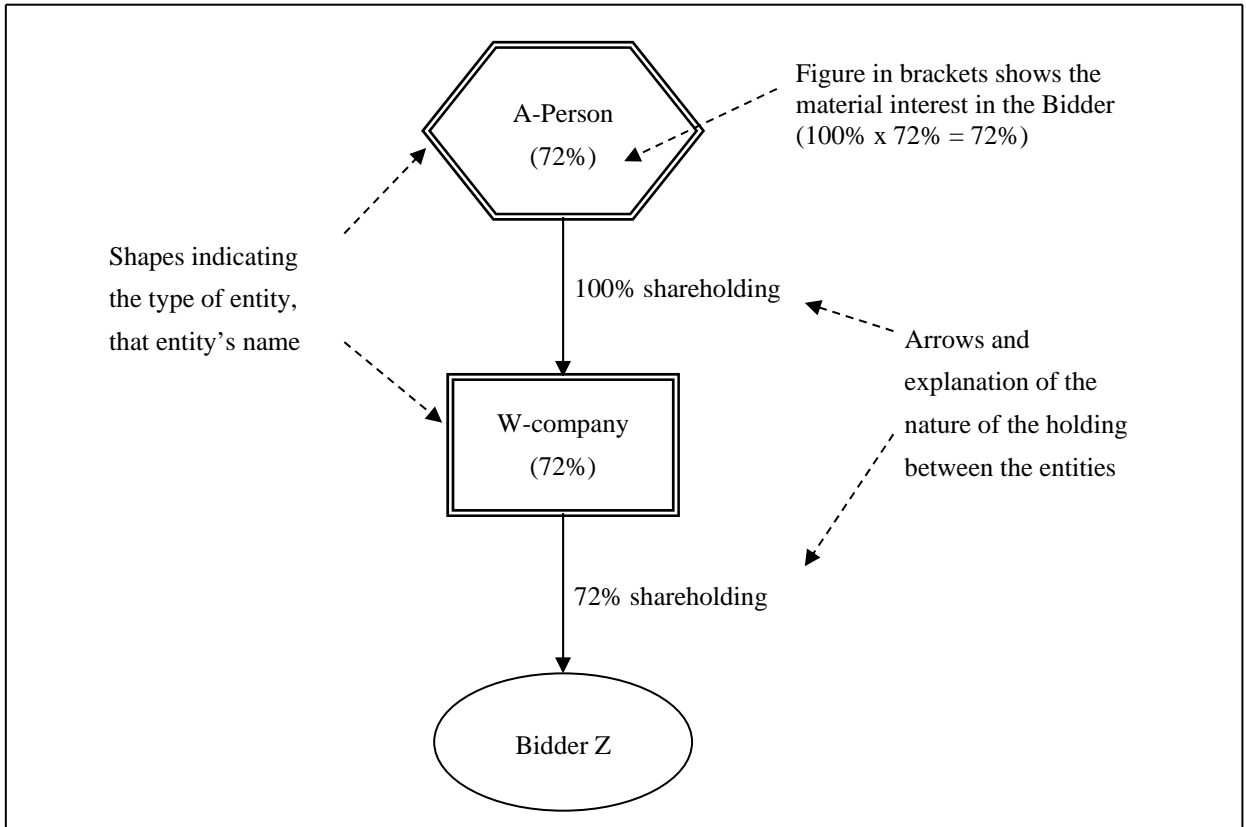

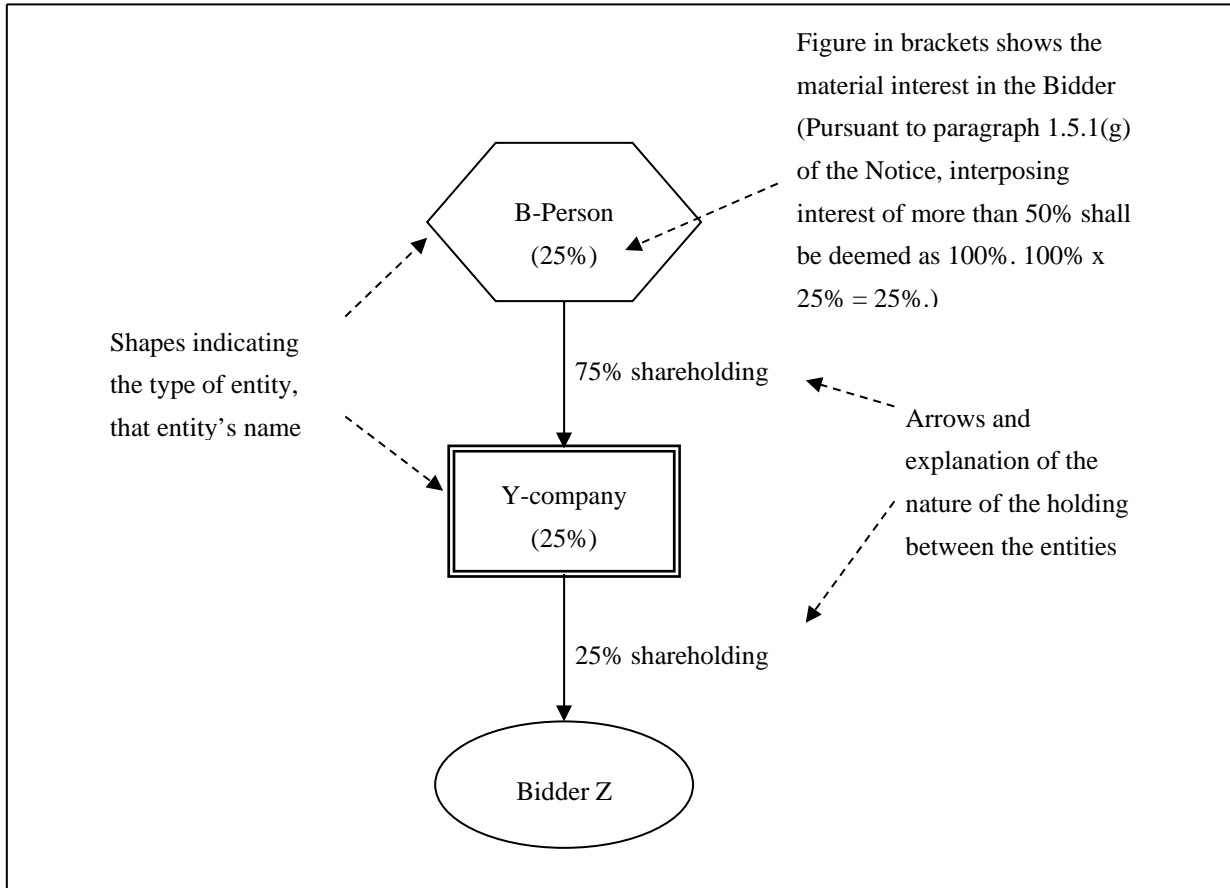

The Bidder is assumed to be an Insider, so it is not necessary to double-line the Bidder's shape.

Links (whether by ownership or some other form of control or arrangement) between entities should be shown as an arrow between holder and held entities, together with a description of the amount of ownership or form of arrangement. Each entity's shape should also contain in brackets a figure (or other explanatory note) stating that entity's material interest in the Bidder itself.

Illustrative example 1:

Each of Person A, Person B, Company W and Company Y has more than 15% interest directly or indirectly in Bidder Z. Bidder Z must disclose the interest of Person A, Person B, Company W and Company Y in diagrams as follows:

Bidder Z, however, is not required to disclose the names of other shareholders who do not hold more than 15% interest in it (e.g. Person C holding the remaining 3% shareholding interest in Bidder Z).

For the avoidance of doubt, Bidder Z is required to disclose any body corporate in which it has a shareholding of more than 15%.

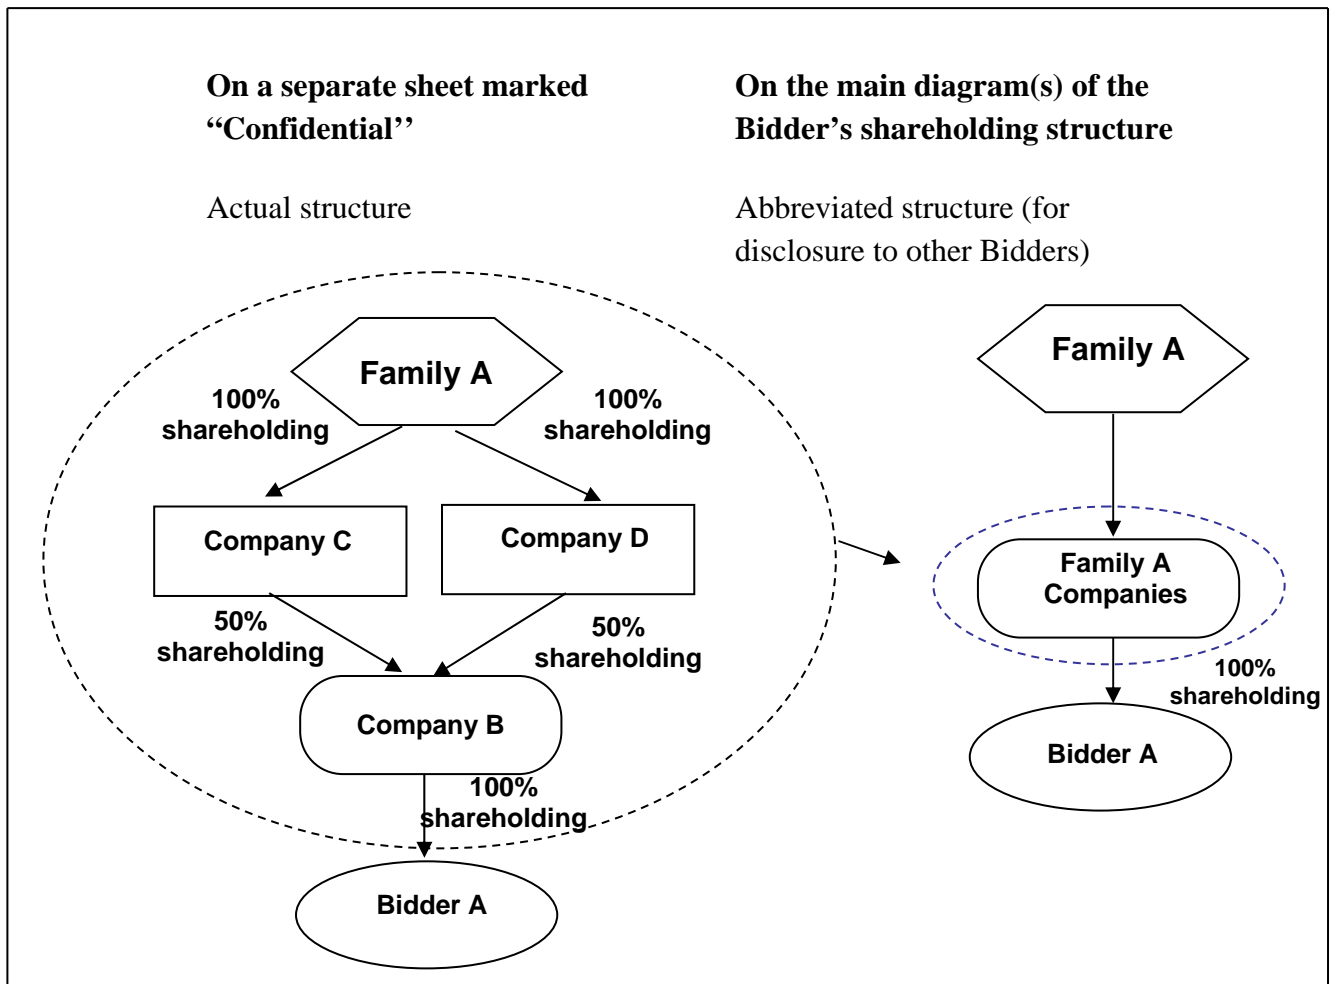

If the form of interest in the Bidder is not readily explainable in the format set out above, provide additional arrows together with explanatory text either in the diagram or in a footnote.

If these diagrams do not fit legibly onto a single sheet of paper, please provide additional sheets (which can be larger than A4 if necessary) to make the requested information clear.

The diagrams below illustrate how shareholding information that the Bidder wishes to keep confidential should be presented.

Illustrative example 2:

Bidder A is 100% owned by a company (Company B) which in turn is owned by two companies (Companies C and D), each holding 50% of Company B, and these two companies are 100% owned by a family (e.g. Family A). The following diagram illustrates how Bidder A is permitted to present its shareholding structure diagram:

ANNEX D WORKED EXAMPLES OF THE AUCTION

WORKED EXAMPLES OF THE AUCTION

Introduction

This Annex sets out some illustrative and non-exhaustive examples of the bidding scenarios that may occur during the bidding process.

The worked examples are intended to provide step-by-step illustration of the Bidding Stage and the application of the auction rules set out in the Notice and explained in Section D of the Memorandum. For this purpose, the worked examples are simplified and are not intended to predict or reflect the actual behaviour of Bidders and the actual situation of the Auction.

The worked examples are for reference only. Readers should not construe the worked examples as any projections, estimates or expectations of any plan, decision or action by the Authority or the Government. The worked examples shall not prejudice the operation of the auction rules set out in the Notice and the exercise by the Authority of any power thereunder.

Assumptions of the worked examples

The worked examples are based on the following assumptions:

- (i) There are 4 Frequency Bands (A1, A2, A3 and A4) and 5 Frequency Bands (B1, B2, B3, B4 and B5) in the 1800 MHz and 900 MHz bands respectively available for auction. Each Frequency Band has a bandwidth of 2 x 5 MHz or 2 x 10 MHz and is attributed one or two Eligibility Point(s) (“EP”) depending on its bandwidth. The minimum fee (i.e. the reserve price) for each Frequency Band is set at HK\$38 million per MHz as follows:

Frequency Bands	Bandwidth	Reserve prices	EPs
1800 MHz band			
A1	2 x 10 MHz	HK\$760 million	2
A2	2 x 10 MHz	HK\$760 million	2
A3	2 x 10 MHz	HK\$760 million	2
A4	2 x 5 MHz	HK\$380 million	1
900 MHz band			
B1	2 x 5 MHz	HK\$380 million	1
B2	2 x 5 MHz	HK\$380 million	1
B3	2 x 5 MHz	HK\$380 million	1
B4	2 x 5 MHz	HK\$380 million	1
B5	2 x 5 MHz	HK\$380 million	1

- (ii) Spectrum assignment through the auction to each Bidder is subject to the Spectrum Cap of not more than 90 MHz for the aggregate amount of spectrum in the 900 MHz and 1800 MHz bands, with a sub-cap of 20 MHz for spectrum in the 900 MHz band.
- (iii) There are 5 Qualified Bidders to participate in the auction. The number of EPs attributed to each Bidder is determined by the amount of Deposits it has submitted (i.e. 1 EP for every HK\$380 million of Deposit submitted). Subject to the Spectrum Cap, the maximum number of EPs that each Bidder may be given is 9 EPs. For the purpose of the worked examples, the EPs given to the Qualified Bidders at the commencement of the Bidding Stage are assumed to be those given in the following table.

Bidders	Deposits submitted	EPs given
M	HK\$3,420 million	9
N	HK\$3,040 million	8
O	HK\$2,660 million	7
P	HK\$2,280 million	6
Q	HK\$1,900 million	5

- (iv) The total number of Waivers that may be exercised by a Qualified Bidder is set to be 2 and the total number of Withdrawals that may be exercised by a Qualified Bidder is set to be 3 at the commencement

of the Bidding Stage.

- (v) Before the start of each Round, the Authority will notify each Bidder of the following information:
- the date on and the time at which the Round shall start and end;
 - the Round Price for each Frequency Band;
 - the number of Valid Bids received for each Frequency Band in the immediately preceding Round (if any);
 - the Frequency Band in respect of which the Bidder is the Standing Highest Bidder (if any);
 - the amount of the Standing Highest Bid for each Frequency Band (if any);
 - the total number of (remaining) Waivers that may be exercised by the Bidder; and
 - the total number of (remaining) Withdrawals that may be exercised by the Bidder.

Round Price

- In Round 1, the Authority sets Round Price at the level of the minimum fee.

Determination of Standing Highest Bid

- For Frequency Band A1, Bids are received from Bidder M, Bidder N, Bidder O and Bidder P. By random, Bidder M is selected as the Standing Highest Bidder.
- For Frequency Band A2, Bids are received from Bidder M, Bidder N, Bidder O and Bidder Q. By random, Bidder N is selected as the Standing Highest Bidder.
- For Frequency Band A3, Bids are received from Bidder M, Bidder P and Bidder Q. By random, Bidder P is selected as the Standing Highest Bidder.
- For Frequency Band A4, Bids are received from Bidder M and Bidder N. By random, Bidder N is selected as the Standing Highest Bidder.
- For Frequency Band B1, Bids are received from Bidder M, Bidder N, Bidder O and Bidder P. By random, Bidder N is selected as the Standing Highest Bidder.
- For Frequency Band B2, Bids are received from Bidder M, Bidder N, Bidder O and Bidder Q. By random, Bidder O is selected as the Standing Highest Bidder.
- For Frequency Band B3, only one Bid from Bidder P is received and that Bid is thus the Standing Highest Bid.
- For Frequency Band B4, no Bid is received from any Bidder. There will be no Standing Highest Bidder.
- For Frequency Band B5, no Bid is received from any Bidder. There will be no Standing Highest Bidder.

Activity Level of each Bidder

- For Bidder M, the Activity Level in this Round is 9 EPs (9 EPs for bidding Frequency Bands A1, A2, A3, A4, B1 and B2). 9 EPs will be attributed to Bidder M in the immediately following Round.
- For Bidder N, the Activity Level in this Round is 7 EPs (7 EPs for bidding Frequency Bands A1, A2, A4, B1 and B2). 7 EPs will be attributed to Bidder N in the immediately following Round.
- For Bidder O, the Activity Level in this Round is 6 EPs (6 EPs for bidding Frequency Bands A1, A2, B1 and B2). 6 EPs will be attributed to Bidder O in the immediately following Round.
- For Bidder P, the Activity Level in this Round is 6 EPs (6 EPs for bidding Frequency Bands A1, A3, B1 and B3). 6 EPs will be attributed to Bidder P in the immediately following Round.
- For Bidder Q, the Activity Level in this Round is 5 EPs (5 EPs for bidding Frequency Bands A2, A3 and B2). 5 EPs will be attributed to Bidder Q in the immediately following Round.

Note

- Each Bidder must bid for at least one Frequency Band in Round 1. If a Bidder fails to do so, that Bidder will be disqualified and its Deposit will be forfeited by way of Penalty (up to the full amount of that Bidder's Deposit).
- A bidder is not required to use all the EPs attributed to it at the beginning of the Round. However, a Bidder who reduces its Activity Level in a Round will have its EPs reduced correspondingly in the immediately following Round. For example, Bidder N is attributed 8 EPs at the beginning of Round 1. Its Activity Level in Round 1 is 7 EPs only. EPs attributed to it in the immediately following Round will be reduced to 7 EPs.
- In light of the sub-cap in the Spectrum Cap, Bidders are not allowed to bid more than 20 MHz in the 900 MHz band. As such, no Bidder may bid for more than two Frequency Bands out of B1, B2, B3, B4 and B5, irrespective of the number of EPs to which it is attributed.
- Waiver is not applicable in Round 1.
- Withdrawal is not applicable in Round 1 since there is no Standing Highest Bid for any of the Frequency Bands at the beginning of Round 1.

P	B3 (\$380M)	6	6	0(2)	0(3)
Q	A3 (\$780M)	5	5	0(2)	0(3)

Round Price

- The Authority increases the Round Prices for Frequency Bands A1, A2, A3, A4, B1, B2 and B3, since at least one Bid is received for each of these Frequency Bands in Round 1.
- The Authority maintains the Round Price for Frequency Bands B4 and B5, having taken into account that no Bid is received for these Frequency Bands in Round 1 and the level of minimum fee for these Frequency Bands.

Determination of Standing Highest Bid

- For Frequency Band A1, Bids are received from Bidder M, Bidder N, Bidder O and Bidder P. By random, Bidder O is selected as the Standing Highest Bidder.
- For Frequency Band A2, Bids are received from Bidder M, Bidder O and Bidder Q. By random, Bidder O is selected as the Standing Highest Bidder.
- For Frequency Band A3, Bids are received from Bidder M and Bidder Q. By random, Bidder Q is selected as the Standing Highest Bidder.
- For Frequency Band A4, Bids are received from Bidder M and Bidder Q. By random, Bidder M is selected as the Standing Highest Bidder.
- For Frequency Band B1, Bids are received from Bidder M, Bidder N, Bidder O and Bidder P. By random, Bidder M is selected as the Standing Highest Bidder.
- For Frequency Band B2, only one Bid from Bidder O is received and that Bid is thus the Standing Highest Bid.
- For Frequency Band B3, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder P) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band B4, Bids are received from Bidder M and Bidder N. By random, Bidder M is selected as the Standing Highest Bidder.
- For Frequency Band B5, no Bid is received from any Bidder. There will be no Standing Highest Bidder.

Activity Level of each Bidder

- For Bidder M, the Activity Level in this Round is 9 EPs (9 EPs for bidding Frequency Bands A1, A2, A3, A4, B1 and B4 + 0 EP attributed to its SHB for Frequency Band A1 at the end of the immediately preceding Round (since it has submitted a Bid on Frequency Band A1 despite its SHB status)). 9 EPs will be attributed to Bidder M in the immediately following Round.
- For Bidder N, the Activity Level in this Round is 7 EPs (4 EPs for bidding Frequency Bands A1, B1 and B4 + 3 EPs attributed to its SHBs for Frequency Bands A2 and A4 at the end of the immediately preceding Round (for which it does not submit a Bid in this Round or submit a Withdrawal) + 0 EP attributed to

its SHB for Frequency Band B1 at the end of the immediately preceding Round (since it has submitted a Bid on Frequency Band B1 despite its SHB status)). 7 EPs will be attributed to Bidder N in the immediately following Round.

- For Bidder O, the Activity Level in this Round is 6 EPs (6 EPs for bidding Frequency Bands A1, A2, B1 and B2 + 0 EP attributed to its SHB for Frequency Band B2 at the end of the immediately preceding Round (since it has submitted a Bid on Frequency Band B2 despite its SHB status)). 6 EPs will be attributed to Bidder O in the immediately following Round.
- For Bidder P, the Activity Level in this Round is 6 EPs (3 EPs for bidding Frequency Bands A1 and B1 + 3 EPs attributed to its SHBs for Frequency Bands A3 and B3 at the end of the immediately preceding Round (for which it does not submit a Bid in this Round or submit a Withdrawal)). 6 EPs will be attributed to Bidder P in the immediately following Round.
- For Bidder Q, the Activity Level in this Round is 5 EPs (5 EPs for bidding Frequency Bands A2, A3 and A4). 5 EPs will be attributed to Bidder Q in the immediately following Round.

Note

- From Round 2 onwards, Bidders may submit Waiver in lieu of taking any action to maintain their EPs. Each Bidder may submit or be deemed to submit a Waiver in a maximum of 2 Rounds.
- From Round 2 onwards, Bidders may submit Withdrawal for their Standing Highest Bids (if any). Each Bidder may exercise a Withdrawal in a maximum of 3 Rounds.
- Bidders are free to submit Bids for Frequency Band(s) of their choice from Round to Round. For example, Bidder Q bids for Frequency Band B2 in Round 1 but does not bid for the same Frequency Band in Round 2. Rather, Bidder Q bids for Frequency Band A4 in Round 2 (which it did not bid for in Round 1).
- Where a Bidder holds a Standing Highest Bid in respect of a Frequency Band at the end of the immediately preceding Round, it may decide whether or not to submit a Bid for that Frequency Band in this Round in accordance with its own commercial and strategic decision. For example, Bidder O elects to submit a Bid for Frequency Band B2 in this Round although it is holding a Standing Highest Bid for that Frequency Band. On the other hand, Bidder P elects not to submit a Bid for Frequency Bands A3 and B3 and rely on its Standing Highest Bid in the immediately preceding Round.

- For Bidder M, the Activity Level in this Round is 9 EPs (7 EPs for bidding Frequency Bands A1, A2, A3 and B3 + 2 EPs attributed to its SHBs for Frequency Bands A4 and B4 at the end of the immediately preceding Round (for which it does not submit a Bid in this Round or submit a Withdrawal)). 9 EPs will be attributed to Bidder M in the immediately following Round.
- For Bidder N, the Activity Level in this Round is 7 EPs (7 EPs for bidding Frequency Bands A1, A2, A4, B1 and B4). 7 EPs will be attributed to Bidder N in the immediately following Round.

- For Bidder P, the Activity Level in this Round is 6 EPs (6 EPs for bidding Frequency Bands A2, A3, B2 and B3 + 0 EP attributed to its SHB for Frequency Band B3 at the end of the immediately preceding Round (since it has submitted a Bid on Frequency Band B3 despite its SHB status)). 6 EPs will be attributed to Bidder P in the immediately following Round.

Note

- At the end of Round 2, Bidder M holds the Standing Highest Bid for Frequency Band B1. In Round 3, Bidder M submits a Withdrawal for Frequency Band B1. The total number of Withdrawal which may be submitted by Bidder M in the remaining Rounds will be reduced to 2.
- In submitting a Withdrawal, Bidder M may be subject to a liability if there is no subsequent Bid for the Frequency Band equal to or higher than its withdrawn Standing Highest Bid (see the calculation of liabilities for Withdrawals at the end of the worked examples).
- Further, the withdrawn Standing Highest Bid is not counted towards Bidder M's Activity Level.

Q	B1 (\$410M), B5 (\$380M)	4	4	0(2)	0(3)

Round Price

- The Authority increases the Round Prices for Frequency Bands A1, A2, A3, A4, B1, B2, B3, B4 and B5, since at least one Bid is received for each of these Frequency Bands in Round 3.

Determination of Standing Highest Bid

- For Frequency Band A1, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder N) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band A2, Bids are received from Bidder N and Bidder Q. By random, Bidder N is selected as the Standing Highest Bidder.
- For Frequency Band A3, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder P) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band A4, no Bid is received from any Bidder. In addition, since the Standing Highest Bidder for A4 at the end of immediately preceding Round (i.e. Bidder N) has submitted a Withdrawal, there is no Standing Highest Bid for the Frequency Band.
- For Frequency Band B1, Bids are received from Bidder N and Bidder Q. By random, Bidder Q is selected as the Standing Highest Bidder.
- For Frequency Band B2, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder P) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band B3, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder P) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band B4, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder N) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band B5, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder Q) will remain as the Standing Highest Bidder of the Frequency Band.

Activity Level of each Bidder

- For Bidder M, a Waiver is submitted. 9 EPs will be attributed to Bidder M in the immediately following Round (based on its Activity Level in Round 3, the most immediately preceding Round in which Bidder M did not submit or was not deemed to have submitted a Waiver).
- For Bidder N, the Activity Level in this Round is 6 EPs (3 EPs for bidding

Frequency Bands A2 and B1 + 3 EPs attributed to its SHBs for Frequency Bands A1 and B4 at the end of the immediately preceding Round (for which it does not submit a Bid in this Round or submit a Withdrawal) + 0 EP attributed to its SHB for Frequency Band B1 at the end of the immediately preceding Round (since it has submitted a Bid on Frequency Band B1 despite its SHB status)). 6 EPs will be attributed to Bidder N in the immediately following Round.

- For Bidder O, it has taken no action and it is deemed to have submitted a Waiver. The EPs attributed to Bidder O in the immediately following Round will be 6 EPs (based on its Activity Level in Round 3, the most immediately preceding Round in which Bidder O did not submit or was not deemed to have submitted a Waiver).
- For Bidder P, the Activity Level in this Round is 6 EPs (6 EPs attributed to its SHBs for Frequency Bands A2, A3, B2 and B3 at the end of the immediately preceding Round (for which it does not submit a Bid in this Round or submit a Withdrawal)). 6 EPs will be attributed to Bidder P in the immediately following Round.
- For Bidder Q, the Activity Level in this Round is 4 EPs (3 EPs for bidding Frequency Bands A2 and B1 + 1 EP attributed to its SHB for Frequency Band B5 at the end of the immediately preceding Round (for which it does not submit a Bid in this Round or submit a Withdrawal)). 4 EPs will be attributed to Bidder Q in the immediately following Round.

Note

- A Bidder may actively submit a Waiver. If a Bidder fails to take any action, it will be deemed to have submitted a Waiver (provided that its entitlement to Waiver is not yet exhausted). Under both situations, the EPs of the Bidder are maintained at the same level of the immediately preceding Round.
- In the present example, Bidder M actively submits a Waiver in this Round whereas Bidder O takes no action and is deemed to have submitted a Waiver.
- Where the number of EPs attributed to all Standing Highest Bids of the Bidder at the end of the immediately preceding Round is equal to the number of EPs attributed to the Bidder in the current Round (e.g. Bidder P), the Activity Level of the Bidder will be equal to the number of EPs attributed to it even if it submits no Bid in the current Round. Waiver will not be applicable.

Q	B1 (\$410M), B5 (\$380M)	2	2	0(2)	0(3)

Round Price

- The Authority reduces the Round Price for Frequency Bands A1, A3, A4, B2, B3, B4 and B5, since no Bid is received for these Frequency Bands in Round 4.
- The Authority increases the Round Prices for Frequency Bands A2 and B1 since at least one Bid is received for each of these Frequency Bands in Round 4.

Determination of Standing Highest Bid

- For Frequency Band A1, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder N) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band A2, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder N) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band A3, no Bid is received from any Bidder. In addition, since the Standing Highest Bidder for Frequency Band A3 at the end of the immediately preceding Round (i.e. Bidder P) has submitted a Withdrawal, there is no Standing Highest Bid for the Frequency Band.
- For Frequency Band A4, only one Bid from Bidder O is received and that Bid is thus the Standing Highest Bid.
- For Frequency Band B1, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder Q) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band B2, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder P) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band B3, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder P) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band B4, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder N) will remain as the Standing Highest Bidder of the Frequency Band.
- For Frequency Band B5, no Bid is received from any Bidder. The Standing Highest Bidder in the immediately preceding Round (i.e. Bidder Q) will remain as the Standing Highest Bidder of the Frequency Band.

Activity Level of each Bidder

- For Bidder M, the Activity Level in this Round is 0 EP. 0 EP will be attributed to Bidder M in the immediately following Round.

- For Bidder N, the Activity Level in this Round is 5 EPs (5 EPs attributed to its SHBs for Frequency Bands A1, A2 and B4 at the end of the immediately preceding Round (for which it does not submit a Bid in this Round or submit a Withdrawal)). 5 EPs will be attributed to Bidder N in the immediately following Round.
- For Bidder O, the Activity Level in this Round is 1 EP (1 EP for bidding Frequency Band A4). 1 EP will be attributed to Bidder O in the immediately following Round.
- For Bidder P, the Activity Level in this Round is 2 EPs (2 EPs attributed to its SHBs for Frequency Bands B2 and B3 at the end of the immediately preceding Round (for which it does not submit a Bid in this Round or submit a Withdrawal)). 2 EPs will be attributed to Bidder P in the immediately following Round.
- For Bidder Q, the Activity Level in this Round is 2 EPs (2 EPs attributed to its SHB for Frequency Bands B1 and B5 at the end of the immediately preceding Round (for which it does not submit a Bid in this Round or submit a Withdrawal)). 2 EPs will be attributed to Bidder Q in the immediately following Round.

Note

- Where a Bidder is attributed 0 EP, it will not be allowed to participate in the subsequent Rounds. For example, Bidder M does not hold any Standing Highest Bid at the end of Round 4. In Round 5, Bidder M elects not to submit any Bid in this Round (without exercising a Waiver whether actively or in a deemed manner), its Activity Level in this Round is 0 EP. The EP attributed to Bidder M in the immediately following Round will be 0 EP. It will not be eligible to participate in Round 6 and for all subsequent Rounds.
- Bidder M's decision not to submit any Bid is different from that of Bidder O in Round 4 where the latter took no action at all and was deemed to have submitted a Waiver for that Round.

- The Authority increases the Round Price for Frequency Band A4, since at least one Bid is received for the Frequency Band in Round 5.

Conclusion of Bidding Stage and determination of Provisional Successful Bidder

- In this Round, no Bids, no Withdrawals and no Waivers are submitted by any of the Bidders. The Bidding Stage ends.
- For Frequency Band A1, Bidder N is the Standing Highest Bidder and thus becomes the Provisional Successful Bidder of the Frequency Band. The Spectrum Utilization Fee is the Standing Highest Bid of HK\$800M.
- For Frequency Band A2, Bidder N is the Standing Highest Bidder and thus becomes the Provisional Successful Bidder of the Frequency Band. The Spectrum Utilization Fee is the Standing Highest Bid of HK\$820M.
- For Frequency Band A3, there is no Standing Highest Bidder and thus no Provisional Successful Bidder.
- For Frequency Band A4, Bidder O is the Standing Highest Bidder and thus becomes the Provisional Successful Bidder of the Frequency Band. The Spectrum Utilization Fee is the Standing Highest Bid of HK\$390M.
- For Frequency Band B1, Bidder Q is the Standing Highest Bidder and thus becomes the Provisional Successful Bidder of the Frequency Band. The Spectrum Utilization Fee is the Standing Highest Bid of HK\$410M.
- For Frequency Band B2, Bidder P is the Standing Highest Bidder and thus becomes the Provisional Successful Bidder of the Frequency Band. The Spectrum Utilization Fee is the Standing Highest Bid of HK\$400M.
- For Frequency Band B3, Bidder P is the Standing Highest Bidder and thus becomes the Provisional Successful Bidder of the Frequency Band. The Spectrum Utilization Fee is the Standing Highest Bid of HK\$385M.
- For Frequency Band B4, Bidder N is the Standing Highest Bidder and thus becomes the Provisional Successful Bidder of the Frequency Band. The Spectrum Utilization Fee is the Standing Highest Bid of HK\$390M.
- For Frequency Band B5, Bidder Q is the Standing Highest Bidder and thus becomes the Provisional Successful Bidder of the Frequency Band. The Spectrum Utilization Fee is the Standing Highest Bid of HK\$380M.

Calculation of liabilities for Withdrawals

- Where a Bidder submits a Withdrawal of its Standing Highest Bid and all the subsequent Bids are lower than the Bidder's withdrawn Standing Highest Bid, the

Bidder will be liable to pay the Government the difference between its withdrawn Standing Highest Bid and the amount of the next subsequent highest Valid Bid (irrespective of whether the next subsequent highest Valid Bid is withdrawn or whether it is determined as the Spectrum Utilization Fee), subject to a maximum amount of 30% of the withdrawn Standing Highest Bid.

- In Round 3, Bidder M submits a Withdrawal for its Standing Highest Bid for Frequency Band B1 at HK\$390M. Since the next subsequent highest Valid Bid for Frequency Band B1 is HK\$410M submitted by Bidder N and Bidder Q in Round 4, which is higher than the amount of the withdrawn Standing Highest Bid, Bidder M is not subject to any liability because of the Withdrawal.
- In Round 4, Bidder N submits a Withdrawal for its Standing Highest Bid for Frequency Band A4 at HK\$400M. Since the next subsequent highest Valid Bid for Frequency Band A4 is HK\$390M submitted by Bidder O in Round 5, which is lower than the amount of the withdrawn Standing Highest Bid, Bidder N is liable for the difference between the withdrawn Standing Highest Bid and the next subsequent highest Valid Bid (i.e. $\text{HK\$}400\text{M} - \text{HK\$}390\text{M} = \text{HK\$}10\text{M}$). The maximum liability at 30% of the withdrawn Standing Highest Bid (i.e. $\text{HK\$}400\text{M} \times 30\% = \text{HK\$}120\text{M}$) does not apply.
- In Round 5, Bidder P submits a Withdrawal for its Standing Highest Bid for Frequency Band A3 at HK\$800M. Since there is no subsequent Bid for Frequency Band A3, Bidder P is liable for 30% of the withdrawn Standing Highest Bid (i.e. $\text{HK\$}800\text{M} \times 30\% = \text{HK\$}240\text{M}$).
